From: Yolanda Gonzales, Director of Head Start/State Child Development

Date: October 7, 2016

Subject: *Agenda Item 1(d):* Acceptance of Resignation of Board Member Ashley Womack,
Policy Council Representative – Action Item

Ashley Womack has resigned as Policy Council Chair as she has moved out of the State and is no longer eligible to be the Policy Council Representative on the Board of Directors.

The Policy Council By-Laws state in Article IV: Section 1. Officers of the Policy Council
(h.) If the Chairperson resigns or is removed from his/her office, the Vice Chairperson will assume the office of Chairperson for the remainder of the term of office.

Jason Warren, Policy Council Vice Chairperson, has accepted the office of the Chairperson as of September 29, 2016. Due to Jason's work obligations this would create a hardship to take time off in the middle of the day to attend the Board meetings.

Jason Warren has appointed a Policy Council member, on his behalf, to fill the Board of Directors Representative seat at the Policy Council meeting on September 29, 2016. The appointed Policy Council member will attend the October 26, 2016 Board of Directors Meeting.

Recommendation:

VI. New Business

- a. Strategic Plan Update – Ralph Martinez, Director of Community Development – ***Info Item***

Ralph Martinez stated the agency is in the process of updating its Strategic Plan and a committee of 19 members has been established that includes three (3) Board members. He stated there are some operational standards the agency must adhere to and Lisa Watson was hired as a consultant to help with the process.

Lisa Watson stated the strategic plan sets a clear direction for the organization, improves performance, helps resolve current challenges and avoid future problems, and provides a framework for decision-making. As the agency is in Phase II of the process, the Board of Directors are to review the "draft" strategic plan which is being presented today. She stated the committee has come up with a "revised" Vision and Mission statement. The Vision statement is "At CAPK we envision a future where communities are economically stable centers of potential with abundant resources for all people." The Mission statement is "Community Action Partnership of Kern shall provide and advocate for resources that will empower members of the communities we serve to be self-sufficient". The committee also came up with newly established value statement; Leadership, Commitment, Respect and Honor, Quality Service Delivery and Communication. She stated the agency conducted a community needs assessment in 2015 and a SWOT (Strengths, Weaknesses, Opportunities and Threats) analysis. Six (6) focal points for action were identified in the plan as goals to achieve over the next five (5) years; CAPK will develop an agency-wide understanding of the needs of its priority populations and develop organizational goals that unify the efforts of programs throughout the agency; CAPK will establish a system so that individuals can easily access the full spectrum of CAPK services; There will be a general understanding of CAPK which drives people to access and support the efforts of the organization; CAPK will actively advocate on behalf of issues affecting its target population; CAPK will have an engaged and retained workforce; and CAPK will develop a strategic financing framework to ensure it is prepared for the future and has an adequate understanding of its financial

position. She stated the next steps is the implementation plan that will begin in October 2016.

Mike Maggard asked if this is part of certain standards that need to be met and Jeremy stated yes, besides being good business practice it is required to be completed as part of the new Operational Standards developed nationally for all Community Action agencies.

Curtis Floyd stated it takes a lot of time to follow up and he recommended to have the board and upper management involved and maybe next time bring parents, staff and he didn't see one African American throughout the presentation and that stood out to him. He feels that there would be a broader perspective if all mentioned are involved.

Fred stated as a member of the team, he felt everyone was open, honest and the meetings have been productive.

- b. Update on Employee Health Plan by Wells Fargo Insurance – Michele Nowell, Director of Human Resources – **Info Item**

Michele Nowell introduced Steve Hulbert, broker for Wells Fargo Insurance to give an overview of the employee health insurance plan renewal and proposals to the Board.

Steve Hulbert stated the Employee Health Plan will renew on January 1, 2017. The agency has 762 full time employees who are eligible for benefits. He stated of this total approximately 492 (65%) employees participate in the medical plan and 536 (70%) participate in the dental plan. The total employee benefit cost for 2016 is \$4.8 million; Blue Shield Medical - \$4.5 million, MetLife Dental - \$190,000 and Hartford Life & Disability \$46,000. He stated employees pay approximately 30% of the total benefit costs and the net annual cost of employee benefits for CAPK was approximately \$3.4 million in 2016. He stated the preliminary Blue Shield Renewal cost is proposed at a 9% increase. They expect the renewal to fall by 1% to 2% through direct negotiations. They also expect to modify the plan design slightly to further reduce the impact of the 2017 renewal. Wells Fargo conducted a benchmarking analysis of the CAPK plan and found that the plan could be modified in the following ways; proposal to add a \$250/admission copayment for hospitalizations; proposal to add a \$50 copayment for outpatient surgeries; office visit copayment increased to \$30 for specialist visits; and proposal to increase the \$100 ER copayment to \$200. He stated employee contributions will be modified slightly with an emphasis on keeping the costs for the Trio HMO as low as possible. He anticipates that the final employee benefits renewal for 2017 for CAPK will end up between 5% and 7%.

Mike Maggard asked if the agency is in a position to negotiate a better rate directly under the contract and Steve stated the agency is not.

Curtis Floyd stated if the agency is large enough to go directly to GemCare and cut out the middle man and Steve stated the agency is not able to do that.

Yolanda Ochoa asked in regards to the benchmarking analysis of the plan, are the employees going to be notified beforehand and Steve stated the information will be communicated to the employees, as is done every year, about changes to the plan and payroll deductions.

Jeremy Tobias stated this is only an update, and this item will be brought back next month to the Board for action, and staff will make their recommendation for approval.

- A. The purpose of this section is to enable contractors participating in CSD's Low-income Weatherization Program (LIWP), funded pursuant to SB 1018, which establishes the Greenhouse Gas Reduction Fund for the deposit and allocation of revenues from Cap and Trade Auctions in the State of California, to fully implement any LIWP Agreement as may be executed by Contractor and CSD, with particular regard to leveraging activities conducted under each program. **STANDARD AGREEMENT
PARTS I & II – ENTIRE CONTRACT**

- C. In order to effect the purposes of this section, Contractor may modify its LIHEAP priority plan, as necessary, for the purpose of concentrating services in disadvantaged communities (DACs), as defined in the LIWP Agreement, using Form 509, which shall be submitted to CSD for review. DACs have been designated areas of special need due to adverse conditions, including high rates of poverty, high concentrations of vulnerable populations, high rates of unemployment and challenging environmental conditions, all of which impact each member of the community, warranting special consideration in making priority assessments.
- D. For purposes of this section, Contractor's LIWP Agreement, if any, together with any amendments thereto, is incorporated by reference and shall be made a part of Contractor's LIHEAP Agreement. Any provision in the LIWP Agreement and/or amendments that violates federal or state law governing LIHEAP is not enforceable under the LIHEAP Agreement. However, LIWP contract provisions shall, to the extent possible and defensible, be interpreted so as to avoid conflict with federal or state law applicable to LIHEAP. Should a legitimate conflict between LIWP contract requirements and applicable law exist, the parties agree to implement LIWP in accordance with applicable law or endeavor to amend the LIWP Agreement as needed in order to realize the purposes of LIWP.

1.7 Leveraging with TRP

- A. The purpose of this section is to enable contractors participating in CSD's Drought Emergency High Efficiency Toilet Retrofit Program ("TRP") for the installation of high efficiency toilets (HETs), pursuant to the "TRP Amendment" to the 2015 LIHEAP contract, including updates, to continue to leverage with LIHEAP under the present Agreement.
- B. If Contractor is not participating in TRP, has completed its obligations under the TRP Amendment, or declines further participation in TRP, this section shall not apply.
- C. If Contractor failed to execute the amendment to the 2015 LIHEAP that extended the contract date to June 30, 2017, Contractor will have elected to terminate Contractor's participation in TRP, thereby making this section inoperable as provided in Paragraph B.
- D. If Contractor elected to continue participation by executing the 2015 LIHEAP amendment extending the contract term, and has not otherwise declined further participation in TRP, all operable provisions of the TRP Amendment to the 2015 LIHEAP Contract, including updates, shall be applicable to the present 2017 LIHEAP Agreement, which provisions are hereby incorporated by reference.

Upon written notice to Contractor by CSD that no funds are available for contract implementation, the Agreement shall be terminated and the State shall have no obligation to pay Contractor or to furnish other consideration under this Agreement and Contractor shall not be obligated for performance.
2. If program funding for any fiscal year is reduced to such degree that CSD reasonably determines that the program cannot be implemented effectively, the State shall at its sole discretion have the option either to terminate this Agreement upon written notice to Contractor or, in the alternative, to offer and negotiate an amendment addressing the reduced funding. If the parties fail to reach agreement on such amendment, CSD may at its option give written notice of termination without further obligation by either party except for contract closeout obligations and final settlement.

B. Federal Budget Contingency

1. The parties agree that because of uncertainty in the federal budget process, this Agreement may be executed before the availability and amounts of federal funding can be ascertained, in order to minimize delays in the provision of services and the distribution of funds. The parties further agree that the obligations of the parties under this Agreement are expressly contingent on adequate funding being made available to the State by the United States Government.
2. If federal funding for any fiscal year is reduced to such degree that CSD reasonably determines that the program cannot be implemented effectively, the State shall at its sole discretion have the option either to terminate this Agreement upon written notice to Contractor or, in the alternative, to offer and negotiate an amendment addressing the reduced funding. If the parties fail to reach agreement on such amendment, CSD may at its option give written notice of termination without further obligation by either party except for contract closeout obligations and final settlement.

**STANDARD AGREEMENT
PARTS I & II – ENTIRE CONTRACT**

3. If federal funding authorities condition funding on any obligations, restrictions, limitations, or conditions not existent when this Agreement was executed, this Agreement shall be amended by mutual agreement for compliance with such obligations, restrictions, limitations or conditions. 4. Subject to the provisions of subparagraph B 2, CSD shall authorize expenditures of funds under this Agreement based on any Continuing Resolution appropriations that are adequate for the purpose. CSD shall notify the Contractor in writing of authorized interval funding levels.

2.5 Miscellaneous Provisions

Executive Summary

Community Action Partnership of Kern (CAPK) is the official anti-poverty agency for Kern County and has been working to provide an integrated network of services since 1965. One of more than 1,000 community action agencies nationwide, CAPK is one of Kern County's largest nonprofit 501(c)(3) corporations. Through a variety of programs and in collaboration with other community service agencies, CAPK helps participants pursue their educational goals, secure and retain employment, maintain adequate housing, receive medical services, obtain energy subsidy and weatherization assistance, encourages parent participation, counteracts hunger and malnutrition, provides child care and preschool education, and other personal and family development opportunities to build and achieve individual and family self-sufficiency.

CAPK embarked upon a strategic planning process to effectively guide agency efforts to transform its service area into an economically stable environment and centers of potential for all Kern County residents. As an initial step in the process, CAPK leadership confirmed the Vision and Mission of the organization. It also established guiding principles that all CAPK staff members strive to use when making decisions, interacting with others and conducting their day to day work.

Vision

At CAPK we envision a future where communities are economically stable centers of potential with abundant resources for all people

Mission

*Community Action Partnership of Kern shall **provide** and **advocate** for resources that will **empower** members of the communities we serve to be **self-sufficient**.*

Guiding Principles

Leadership

Commitment

Quality Service Delivery

Respect & Honor

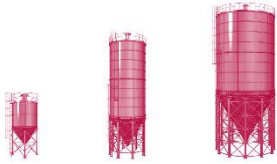

Communication

Following the affirmation of these foundational pillars of the agency, CAPK conducted a scan of the environment in which services are being provided. Organizational leadership completed a SWOT analysis within each facet of agency operations. Additionally, existing organizational documents and statistics regarding community characteristics were reviewed.

The results of the environmental scan led to the identification of five critical issues requiring action.

FAMILY

1. ORGANIZATION CURRENTLY FUNCTIONS IN PROGRAMMATIC SILOS.

CAPK programs are currently working in silos, impacting the organization's ability to strategically deploy resources in a manner that helps it achieve its organizational vision and mission. This type of work environment leaves employees unaware of the comprehensive needs of the communities they serve and unable to connect the work they do to the larger anti-poverty goals of the organization. It also prevents families from accessing the full range of CAPK services in a manner that is streamlined.

COMMUNITY

2. COMMUNICATION EFFORTS ARE INADEQUATE.

Employees, key stakeholders, other community-based organizations, and the general public do not have adequate information about the spectrum of CAPK services or how the organization is structured. As a result, people who are eligible may not be receiving services, and misconceptions about the organization reduce opportunities to strengthen systems and to partner effectively.

3. ORGANIZATION DOES NOT PROACTIVELY ADVOCATE FOR POLICIES OR FUNDING.

External policies and funding don't sufficiently support the ability of individuals (service recipients) to achieve self-sufficiency or the organization (CAPK) to adequately respond to community needs. Advocacy that has been conducted has largely been responsive to possible cuts, positioning the organization to consistently function in a survival mode.

AGENCY

4. ORGANIZATION SUFFERS FROM HIGH TURNOVER AND LOW MORALE.

The organization has struggled with workforce issues which stem from the size of the organization, the variety of different employee incentive structures (based on funding stream), and the lack of a strategic approach to talent management. The results are high turnover and low employee morale.

5. INSUFFICIENT ORGANIZATIONAL RESOURCES TO MEET COMMUNITY NEED.

Most CAPK services are dependent upon public and private funding, which is becoming more competitive and constrained, while the demand for services continues to increase. The organization does not have a proactive planning approach to diversifying its funding stream or a designated plan of action in the event that a major cut in funding were to occur.

Following the identification of critical issues, goals and objectives were developed to guide organizational efforts over the next 5 years.

FAMILY

Goal #1: CAPK will develop an agency-wide understanding of the needs of its priority populations and develop organizational goals that unify the efforts of programs throughout the agency.

- By June 2017 – Review and analyze the needs of our target populations.
- By March 2018 – Develop organizational goals and shared outcomes among CAPK programs.

Goal #2: CAPK will establish a system so that individuals can easily access the full spectrum of CAPK services.

- By December 2019 – Establish a single point of entry for all CAPK services.

COMMUNITY

Goal #3: There will be a general understanding of CAPK which drives people to access and support the efforts of the organization.

- By September 2017 – Establish a communications plan that directs how CAPK will proactively communicate with its employees, the public, partner agencies, and key community stakeholders.
- By December 2017 – Implement internal communication activities to support knowledge transfer.
- By December 2016 – Implement external communication activities to increase awareness of and support for CAPK among all community stakeholders (clients, partners, funders, etc.).

Goal #4: CAPK will actively advocate on behalf of issues affecting its target populations.

- By June 2017 – Track and respond to changes in local, state, and federal legislation affecting our service populations.
- By December 2017 – Proactively develop and implement an advocacy agenda.
- By March 2018 – Identify, formalize, nurture, and maintain relationships with key policy stakeholders.

Goal #5: CAPK will have an engaged and retained workforce.

- By June 2018 – Develop an organization-wide talent management plan.
- By June 2018 – Develop the internal systems necessary to recruit the best people and place them in the right positions.
- By June 2018 – Establish an onboarding process that positions new employees for success.
- By January 2019 – Create a consistently applied process for developing employees.
- By June 2019 – Establish a culture of talent appreciation that recognizes the contributions of all CAPK employees.
- By June 2019 – Create and share a succession strategy that will reward employees for advanced placement.

Goal #6: CAPK will develop a strategic financing framework to ensure it is prepared for the future and has an adequate understanding of its financial position.

- By September 2018 – Develop a long-range financial plan.
- By December 2018– Establish financial practices which provide CAPK with better budget flexibility.

This plan will be used as a management tool with progress reviewed monthly and updates established annually, as needed.

Adaptability to Changing Conditions

Since its inception over 50 years ago, CAPK has undergone considerable change, challenges, and growth. Five years ago, CAPK was faced with the realization that the agency had become stagnant, mired in silos, and operating under outdated policies and systems. CAPK's 2010-2012 Strategic Plan outlined objectives that would help the organization grow, become efficient, and meet the needs of its clients, employees, and other stakeholders.

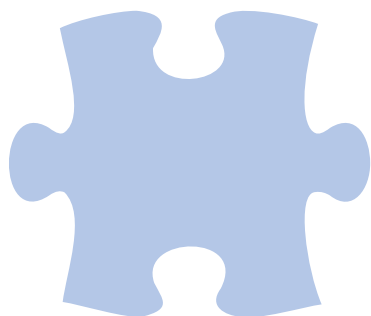

In 2011 CAPK leadership committed to initiate a Strategic Transformation to create a culture of innovation and operational excellence. Under the guidance of Wipfli, one of the nation's top accounting and business consulting firms, CAPK created a Guiding Change Coalition composed of members representing the Board of Directors, leadership, and staff from throughout the agency. The purpose of the Guiding Change Coalition was to identify immediate and future challenges to CAPK, identify training needs so that all management staff became effective leaders, and set short- and long-range goals to transform CAPK into a highly effective poverty fighting machine.

The Guiding Change Coalition developed a *Burning Platform* approach (Appendix D), which inspired the deployment of agency-wide activities to address the dire conditions that were impacting so many people in Kern County. The *Burning Platform* signaled that CAPK must and would transform into a more effective change agent, and that maintaining the status quo was no longer an option.

As a result of this mandate, the following initiatives were set into motion:

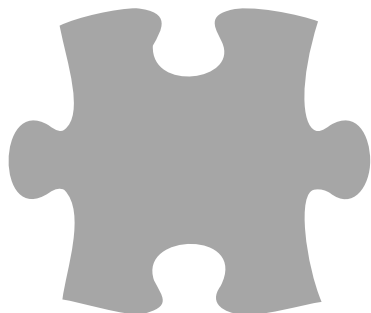

Commitment to a continuous state of improvement. To accomplish transformative goals, CAPK began a long-term effort to establish goals and change the culture of CAPK. The *Burning Platform* was shared with the Board of Directors, all employees, CAPK's partners, and stakeholders in the community. CAPK Division Directors are engaged in continuous training to improve communication and work effectively as a cohesive group.

Investment in professional development. With over 800 well-trained employees who are committed to the *Burning Platform*, CAPK becomes a tremendous force able to positively impact the Kern County community. Head Start employees regularly participate in extensive training; CAPK volunteers were provided with training on the many programs offered to the community; and specialized supervisory training was provided to all managerial staff. An Employee Recognition Committee has been created to identify strategies to acknowledge outstanding employees.

Improvement of systems and policies. Improved the agency's core capacity by upgrading or adopting reporting, tracking and operational systems and software and reorganizing divisions and functions to improve efficiency. CAPK installed new accounting, human resources, and payroll software; streamlined and reorganized the procurement process; reorganized the Information Technology unit and services; adopted an indirect cost rate; updated finance policies and procedures; and strengthened annual audit controls.

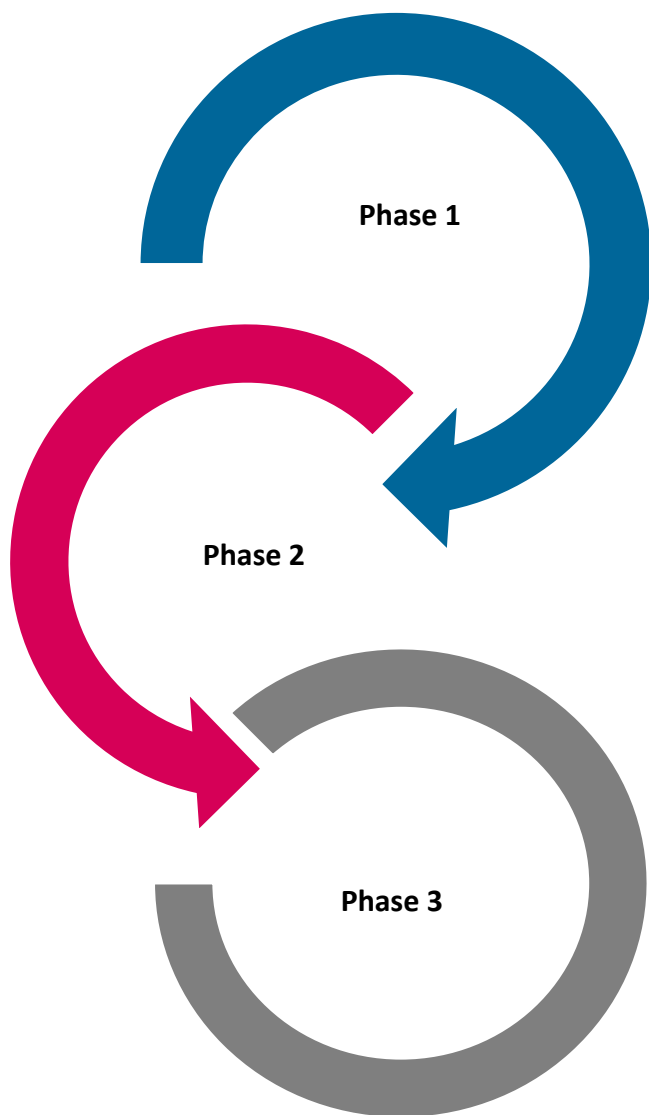

Improvement of communication. Improved CAPK's communication capabilities by assigning an Outreach and Advocacy Manager to direct both internal and external communications, which increases the dissemination and consistency of information to employees, clients, stakeholders, and the community.

The 2016-2020 Strategic Plan provides a map of forward-looking goals to guide CAPK on its path to becoming an innovative and effective anti-poverty agency.

Methods and Approach

To develop this strategic plan, a three-phased approach was used to include: Phase 1 – Assessment and Analysis; Phase 2 – Strategic Planning Session; and Phase 3 – Establishing the strategic plan document. The three phases took place between March and July 2016.

Phase I – Assessment and Analysis

Phase I involved the review and collection of data to prepare for strategic planning. Information related to the Strengths, Weaknesses, Opportunities and Threats (SWOT) associated with each organizational department was collected and analyzed. This was combined with existing data regarding community needs and synthesized to establish the situational analysis.

Phase 2 – Strategic Planning Session

A strategic planning session took place on April 18, 2016. During this session, the results of the situational analysis were reviewed and recent organizational accomplishments were identified. Using a blended planning approach (critical issues and goals-driven), a facilitated discussion occurred in which goals and strategies for future implementation were identified.

Phase 3 – Documenting the Plan

Information gathered and decisions made during the strategic planning session were then documented into the strategic plan document. The document was reviewed and feedback was provided by an outside consultant. The draft plan was reviewed by the CAPK board and made available for public comment prior to its adoption.

Situational Analysis

The following situational analysis was completed to assist the organization in understanding the current reality for the residents of Kern County as well as what issues are facing CAPK as an organization, including internal strengths, areas to improve, external opportunities, and threats.

CAPK has and will continue to identify opportunities to expand its service reach in communities outside of Kern County. When necessary, CAPK customizes its service approach when the service population and needs differ significantly than those of Kern County. This situational analysis includes a review of these communities' various needs appropriate to the level of services offered.

Kern County

Kern County is located in Central California at the southern end of the San Joaquin Valley and is the state's third-largest county by land area. At 8,172 square miles, Kern is larger than the states of Massachusetts, New Jersey, and Hawaii. Terrain varies dramatically within the county, from the valley lowlands, to the mountain peaks of the southern Sierra Nevada, to arid stretches of the Mojave Desert. Because of this geographic diversity, the county has a wide range of climates, determined largely by elevation and precipitation. Summer temperatures often reach over 100 degrees during the summer on the valley floor and in the Mojave Desert, and winter temperatures drop into the teens in the higher mountains.

Demographic Information

The following table represents the demographics of Kern County (2010 U.S. Census Bureau). As identified in the table, over half (51.6 percent) of the population in Kern County are male and 48.4 percent are female. The largest age group in Kern County consists of adults between the ages of 35-54 years (25.9 percent), followed by children ages 0-14 years (25.1 percent), and adults between the ages of 20-34 years (22.4 percent). The majority of Kern County residents are White (59.5 percent), with the second largest group being Hispanic/Latino (49.2 percent).

Population Projections

According to the Kern Economic Development Corporation, the population of Kern County is expected to reach 1,010,800 individuals by 2020. Between 2015 and 2020, it is anticipated that more than 136,536 people will become residents of the county, representing an annual average increase of 1.8%.¹

In 2013 children under the age of 18 represent a large percentage of the population in Kern County at an estimated 30% of the total county population, with 8.6% of children 0-5 years of age. At 30%, this is one of the highest percentages for that age group compared to other counties and much higher than the state with 24% of residents under the age of 18.

County Snapshot

The *County Health Rankings* measure the health of nearly all counties in the nation. The data is compiled using county-level measures from a variety of national and state data sources. The data represented in the chart below are taken from the most recent data available (2004-2011). These measures are standardized and combined using scientifically-informed weights².

The table below provides a snapshot of how Kern County characteristics compare to the state of California as well as their placement in relationship to nationally established benchmarks. The information provided lends to an understanding that a number of co-existing factors are affecting Kern County residents. Families are struggling with financial insecurity as they suffer from high unemployment rates, low educational attainment, and inadequate social associations. The number of people reporting poor physical health as well as unhealthy behaviors (obesity and alcohol consumption) exceeds that of statewide averages and falls far from meeting national benchmarks. Additionally, a fifth of county residents are uninsured and are limited in their access to primary or dental care.

Community and Client Needs Assessment

CAPK conducted a community needs assessment in 2015 to identify the needs and resources available throughout Kern County. The assessment utilized a number of tools and data sources to include:

- A resident needs survey (214 responses)
- A community service provider survey (14 agency participants)
- Data from 211 Kern County call center
- Existing community health needs assessment information

Some of the major findings according to that needs assessment include:

Employment Readiness

- The resident survey, service provider survey, and health needs assesment indicate that many Kern County residents lack the training, specialized skills and/or education to prepare them for the workforce. Services such as employment counseling and training programs were identified as significant needs in the community.

Unemployment

- The resident survey, service provider survey, and health needs assesment indicate that unemployment is a major issue facing Kern County residents. Residents indicate the need for job opportunities and access to child care to support their ability to become employed.

Access to Health Care

- Both the service provider survey and the health needs assessment indicate that it is difficult for Kern County residents to access health care and behavioral health care services. Additionally, the resident survey indicates that the biggest health care concern is the lack of its affordability.

Basic Needs

- According to the 211 Kern County call statistics, and results from the community service providers survey, many low-income Kern County residents lack the most basic needs such as secure housing, utilities, food and clothing.

SWOT Analysis

Each division within CAPK and members of the Board were asked to identify the strengths, weaknesses, opportunities and threats (SWOT) facing the organization. CAPK, like all organizations, has a mix of strengths and weaknesses, affected by significant external pressures and internal factors. The SWOT analysis, presented below, is the result of a highly participatory process, and thus contains contradictory views, or differences of opinion and perception about the organization's current strengths, weaknesses, opportunities, and threats. The information provided is essentially a snapshot in time that is most useful as a short term reflection of perceptions and opinions. Its intended use was to identify opportunities to leverage, issues to address, and circumstances to anticipate throughout the development of the strategic plan.

Strengths:

The assets, resources, or capabilities that have the greatest positive impact on the success of the organization and its ability to achieve its mission.

- Staff are knowledgeable and committed to the service population.
- Board and executive leadership are strong.
- Programs have been flexible to changes in the environment.
- Organization is able to meet contractual obligations and has some systems in place to manage risk.
- Families receive high quality services.
- Organization is knowledgeable and responsive to the needs of families.
- Partnership with other service providers.
- Provision of services in rural and "hard to reach" populations where limited access exists.
- Long history of service to the community.
- Good contract compliance and strong relationships with funders.

Weaknesses:

The aspects of the organization that are considered to be important internal weaknesses—deficiencies in resource or capabilities, or other liabilities, that are hindering the ability of the organization to achieve its mission.

- Organization tends to operate in silos, focused on divisional objectives without understanding the connection to the broader mission.
- There are insufficient resources to support organizational activities (lack of funding, technology tools/capabilities, low staff resources, lack of appropriate facilities and supplies).
- The organization does not have a strategic approach to talent management, resulting in high staff turnover and low employee morale.
- There are not consistently applied communication efforts to ensure that knowledge is shared appropriately throughout the organization.
- Lack of a diversified funding stream leaves the organization at risk.
- The organization needs time to plan and organize its system to develop further efficiencies in its work processes.

Opportunities:

The external factors that offer a genuine opportunity to benefit the organization. This may include environmental factors that allow the organization to expand its services, or apply its capabilities to benefit a different part of the community.

- Opportunity to be a capacity builder for smaller nonprofit organizations throughout Kern County.
- Building alignment between our services/goals and other providers to increase partnerships, services, outreach efforts, expand best practices and improve funding opportunities.
- Opportunity to build upon the local, state, federal and private sector support for improvement in the areas of workforce development, education, health, and well-being.
- Opportunity to position the organization as a leader in discussions around poverty and how to eradicate it.
- Expansion of the geographic areas served.
- Use of social media/technology to create workplace efficiencies and increase our outreach efforts.

Threats:

The external conditions, trends, and other forces that could potentially impact the organization in some manner if not addressed.

- Lack of sufficient resources to respond to agency, family, and community needs.
- Reliance upon state and federal funding streams which are not always stable.
- Increasing competition related to funding.
- Local, state, and national politics and its impact on agency operations (e.g., transitional kindergarten).
- Lack of community awareness about CAPK and its role, responsibilities, and reach in the community amongst policy makers, stakeholders, and the general public. Perceptions associated with organization/name/brand can sometime act as a hindrance to efforts.
- Workforce issues: competition for workforce, lack of skills, etc.

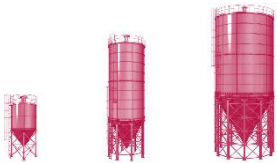

Division-specific SWOT information can be found in the Appendix C of this document.

Critical Issues

Five critical issues emerged from a review of the environmental scan, community needs assessments as well as the SWOT analysis. These issues were discussed and validated during the strategic planning session attended by CAPK leadership, Executive Staffing, and Board Members.

FAMILY

1. ORGANIZATION CURRENTLY FUNCTIONS IN PROGRAMMATIC SILOS.

CAPK programs are currently working in silos, impacting the organization's ability to strategically deploy resources in a manner that helps it achieve its organizational vision and mission. This type of work environment leaves employees unaware of the comprehensive needs of the communities they serve and unable to connect the work they do to the larger anti-poverty goals of the organization. It also prevents families from accessing the full range of CAPK services in a manner that is streamlined.

2. COMMUNICATION EFFORTS ARE INADEQUATE.

Employees, key stakeholders, other community-based organizations, and the general public do not have adequate information about the spectrum of CAPK services or how the organization is structured. As a result, people who are eligible may not be receiving services, and misconceptions about the organization reduce opportunities to strengthen systems and to partner effectively.

3. ORGANIZATION DOES NOT PROACTIVELY ADVOCATE FOR POLICIES OR FUNDING.

External policies and funding don't sufficiently support the ability of individuals (service recipients) to achieve self-sufficiency or the organization (CAPK) to adequately respond to community needs. Advocacy that has been conducted has largely been responsive to possible cuts, positioning the organization to consistently function in a survival mode.

4. ORGANIZATION SUFFERS FROM HIGH TURNOVER AND LOW MORALE.

The organization has struggled with workforce issues which stem from the size of the organization, the variety of different employee incentive structures (based on funding stream), and the lack of a strategic approach to talent management. The results are high turnover and low employee morale.

5. INSUFFICIENT ORGANIZATIONAL RESOURCES TO MEET COMMUNITY NEED.

Most CAPK services are dependent upon public and private funding, which is becoming more competitive and constrained, while the demand for services continues to increase. The organization does not have a proactive planning approach to diversifying its funding stream or a designated plan of action in the event that a major cut in funding were to occur.

COMMUNITY

AGENCY

Goals and Objectives

The critical issues, as described in the previous section, were used as the basis for developing the following goals and objectives for CAPK. These goals and objectives shall serve as a road map to focus CAPK's efforts over the next three to five years toward achieving results that promote self-sufficiency among families and the development of thriving communities. The plan guides limited staff resources at a strategic level and establishes a framework to assist CAPK in measuring progress toward meeting its goals and holding itself accountable for the work that it does.

CRITICAL ISSUE: ORGANIZATION CURRENTLY FUNCTIONS IN PROGRAMMATIC SILOS.

The Issue: CAPK programs are currently working in silos, impacting the organization's ability to strategically deploy resources in a manner that helps it achieve its organizational vision and mission.

CRITICAL ISSUE: ORGANIZATION SUFFERS FROM HIGH TURN-OVER AND LOW MORALE.

The Issue: The organization has struggled with workforce issues which stem from the size of the organization, the variety of different employee incentive structures (based on funding stream), and the lack of a strategic approach to talent management. The results are high turnover and low employee morale.

| 5.5 By June 2019 – Establish a culture of talent appreciation that recognizes the contributions of all CAPK employees. |  | Establish an Employee Recognition Committee to survey employees to identify their recognition preferences and develop a system which recognizes employees' efforts and their impact on the organization's success. |
| 5.6 By June 2019 – Create and share a succession strategy that will reward employees for advanced placement |  | Develop a strategy to identify talent within staff/volunteers and provides opportunities for growth and promotion. |

CRITICAL ISSUE: INSUFFICIENT ORGANIZATIONAL RESOURCES TO MEET COMMUNITY NEED.

The Issue: The organization does not have a proactive planning approach to diversifying its funding stream or a designated plan of action in the event that a major cut in funding was to occur.

Goal #6: CAPK will develop a strategic financing framework to ensure it is prepared for the future and has an adequate understanding of its financial position.

6.1 By September 2018 – Develop a long-range financial plan.

Explore funding needs, resources secured, and gaps based on current service delivery. Identify alternative funding mechanisms which may support addressing resource gaps. Also, develop a plan for responding to possible funding cuts.

6.2 By December 2018 – Build upon financial practices which provide CAPK with better budget flexibility.

Use the long-range financial plan as the basis for developing annual budgets. Also regularly use budget monitoring tools to ensure budgets are on track or whether adjustments are needed.

Evaluating and Updating the Plan

This plan will be used as a management tool with ongoing implementation, quarterly progress reviews, and updates established annually, as needed.

Ongoing implementation

Implementation of each goal will be driven by the strategy lead identified in the plan. Implementation efforts will be customized according to what works best for the people in each implementation team.

Implementation efforts will begin in September 2016.

Quarterly review

A review of each active strategic goal/objective will occur on a quarterly basis during strategic plan implementation meetings. Status updates will be prepared by strategy leads with the expectation that information shared will be disseminated throughout the organization. This structure will ensure that staff at every level, and within each division/program of the organization, are informed of progress being made, and will offer an opportunity for those not directly associated with objective activities to provide assistance and input.

The quarterly reviews will be documented to capture the accomplishments and lessons learned throughout the process.

Quarterly reviews will begin in January 2017.

Annual Update

CAPK will conduct a comprehensive annual review of the strategic plan.

- Goals and objectives will be updated as needed based on achievement, changing circumstances, and staff feedback.
- Revisions to the strategic plan will be presented to the board for review and adoption.
- The updated strategic plan will be distributed to internal and external stakeholders.

Annual reviews will take place during the summer of every year covered by this plan.

Annual Implementation Plan

An annual implementation plan will be established by CAPK leadership to guide the activities associated with each year covered by this strategic plan document.

The implementation plan will be established following the annual update and will be completed by September 1 of each year covered by this plan.

Critical Issue: Organization does not proactively advocate for policies or funding.

External policies and funding don't sufficiently support the ability of individuals and families (service recipients) to achieve self-sufficiency or the organization to adequately respond to community needs.

Appendix B: CAPK Community Needs Assessment 2015

The CAPK Community Assessment for the 2016-2017 CAP Report consists of a combination of the following activities to provide a review of the needs and resources within the agency's service area.

- Community and Resident Needs Surveys;
- Participation in other agencies' needs assessments, including the City of Bakersfield Consolidated Plan and Kern County Consolidated Plan;
- Evaluation of unmet needs from the 211 Kern County helpline program; and
- Collection of poverty and demographic data.

Community and Client Needs Surveys

CAPK developed and distributed Community Needs Surveys in English and in Spanish for Kern County residents and public and nonprofit service agencies. These surveys were created and made available through SurveyMonkey.com, an online survey tool that creates surveys, collects responses, and analyzes data as well as in paper form for those who do not have computer access. Paper survey responses were manually entered into SurveyMonkey.com for analysis.

The purpose of the survey was to provide a snapshot of residents' opinions regarding poverty, their personal socioeconomic conditions, programs and services recently accessed, and perceived needs in the future. The survey consisted of multiple-choice questions which measured the level of needs for family, youth, and community services, health and nutrition services, employment services, and early childhood education services. The community needs survey was made available to residents and social service agencies throughout the county, but the instrument was not designed to collect a statistically significant sampling of the agency's service area population.

Survey Distribution Methodology

During the period April 29, 2015, to May 8, 2015, the online surveys were promoted via CAPK's Web site, Facebook page, and e-mail blasts to CAPK employees, partner agencies, volunteers, local policymakers, and other residents. For the full survey and results, see Appendix A.

Resident Survey Summary Narrative

A total of 214 responses were received and analyzed. Surveys were available in English and Spanish. Availability of jobs, jobs programs, employment training, and basic educational opportunities are viewed by the majority of survey participants as priority community needs. Other priority needs include youth services, anti-gang programs, and nutrition and health education programs. Affordable health care and health insurance were among the primary health-related needs. The following is a summary of survey questions and priority need areas identified by respondents.

Poverty (Question #1): The highest percentage of survey respondents believe that the lack of job training or specialized skills is the primary cause of poverty in their community (23.9%). Of the 18

persons who wrote comments for “Other,” two felt that “All of the above” contributed to poverty and four stated that drugs were the primary cause. Eight people stated that the cause of poverty was due to personal characteristics of impoverished persons such as laziness or poor work ethic.

Employment (Question #2): Similarly, the highest percentage of survey respondents believe that the primary reason it is difficult to get a job in their community is that there simply are no jobs available (21.9%). Child care (20.8%) was the second reason cited. There were 22 written responses for “other.” Of those, 8 wrote in answers that were already in the selection such as child care or lack of training. Of the remaining 14 written responses, 9 people said that the question was not applicable to them or they had a job. Youth (Question #3): With respect to programs for young people, the highest percentage of respondents (35.6%) believed that jobs programs are the most needed.

Housing (Question #4): Both English and Spanish language respondents indicated that the change that would most improve housing would be more affordable rent or mortgage (51.6%).

Health (Question #5): In spite of the roll out of the Affordable Care Act/Covered California in 2013, the highest percentage of respondents to this question cited the lack of affordable health services/medicine as their greatest health concern (44.5%).

Public Services (Question #6): Employment services are viewed as the most important type of public service needed (30.6%).

Jobs/Employment (Question #7): The highest percentage of respondents (39.49%) indicated that skilled employment training programs (welding, air conditioning repair, and auto mechanics) are jobs/employment programs most needed.

Emergency/Basic Needs (Question #8): Survey participants were asked to identify the greatest priority needs (top two) that their families have had during the last 12 months. The priority needs with the greatest percentages were assistance with paying utility bills 40.1%) and help finding a job (24.9%).

Residence (Question #9): Of the individuals who responded to this question, 73% resided in metropolitan Bakersfield.

Race/Ethnicity (Question #10): Of the individuals who responded to this question, 4% were White, 8.8% were Black/ African American, and 45.1% were Hispanic or Latino (of any race).

Age (Question #11): The two largest age groups of respondents to this question were 30-40 (29%) and 50-65 (20%).

Gender (Question #12): Female survey respondents far outnumbered males, representing 79.9% of all survey participants who responded to this question. One response received was from a self-identified gender fluid individual.

Income (Question #13): The highest percentage of individuals who responded to this question had family incomes in the \$20,000-\$30,000 per year range (22.5%), and \$60,000+ per year (22%).

Health Needs Assessments

CAPK staff participated in the countywide Healthy Kern Community Health Needs Assessment in October 2012. The assessment resulted in publication of the 2012/2013 Kern County Community Needs Assessment, which combines quantitative and qualitative information based on review of health and quality of life data and interviews with community leaders and representatives of local agencies. The main purpose of this report is to gain insight into current conditions and trends of various health indicators and to identify areas for improvement.

The 2012/2013 assessment is a collaborative effort of Delano Regional Medical Center, Dignity Health (Mercy and Memorial Hospitals), Kaiser Permanente, and San Joaquin Community Hospital. The 2012/2013 report is also linked to Healthy Kern County, which is a Web site designed to provide a one-stop source of nonbiased data and information about community health in Kern County. It is intended to help planners, policy makers, and community members identify issues and devise solutions. Healthy Kern County includes comprehensive local data, Healthy People 2020 Progress Tracker, news, informative articles, and a community activities calendar.

The top four priority areas identified in the 2012/2013 Kern County Community Needs Assessment include:

1. Obesity
2. Basic Needs: Poverty and Unemployment
3. Educational Attainment
4. Access to Health Care

The collaborative created a set of interview questions and obtained input from key stakeholders in the community to validate the top issues, identify gaps, and suggest evidenced-based and/or promising practices to address the issues.

Public Hearing

CAPK held a public hearing at its administrative offices on Wednesday, May 20, 2015, to provide an opportunity for members of the community to learn about Kern County's needs, the purpose of the Community Action Plan and its areas of focus, and to comment and provide input on the draft CAP in an open discussion format.

The following is a list of attendees (Appendix C, Sign in Sheet) and comments:

Comment 1: CAPK would find oil and gas facilities disproportionately located where poverty exists. There is a negative impact to those in poverty from industrial operations. Children attending the Lost Hills Child Development Center are at risk from the close proximity of oil and gas operations. There is

no health clinic in Lost Hills and Omni Health couldn't find a doctor to serve the area. Consider approaching Paramount Farms for help recruiting medical services. CAPK should use the EPA GIS mapping system during the decision making process, it is greatly improved due to recent upgrades. Ensure translation of public documents when needed for non-English speakers (e.g., Spanish, Mixtec, Punjabi, and others).

Comment 2: Consider a program like Parents on a Mission.

Comment 3: Consider youth mentorship programs as one way to fill the gap to serve kids needing assistance through the education process or in job training programs.

Comment 4: Strengthen the partnerships with Clinica Sierra Vista, especially in the area of health services. There is a need for more intensive mentoring during the career readiness process.

211 Kern County Unmet Needs

Persons with Disabilities

Among the civilian noninstitutionalized population in Kern County in 2013, an estimated 11.8% reported a disability². The likelihood of having a disability varied by age, from 3.1% of people under 18 years old, 11.7% of people 18 to 64 years old, and 41.3% of those 65 and over. For the December 1, 2013, reporting cycle, there were 2,073 children ages 0-5 years who were enrolled in Special Education Programs in Kern County.

Poverty Guidelines

Guidelines for determining the number of people living in poverty in the U.S. are published annually by the Federal Register. Poverty guidelines are a simplified version of the federal poverty thresholds and

are used for administrative purposes such as determining financial eligibility for certain federal programs. They are issued each year in the *Federal Register* by the Department of Health and Human Services (HHS).

Poverty

For 2013, the estimated median household income in Kern County was \$48,552, up from the 2012 estimate of \$45,910, and \$12,542 less than the California median household income of \$61,094. In 2013, 19% of all families in Kern County had incomes below the poverty level, roughly the same as the 2012 estimate of 20%. Although rates for all families did not have a significant change, poverty rates increased by 3.8% for families with children under the age of 5 years. In 2013, 25.8% of all families with children under 5 years of age had incomes below the poverty level, compared to the 2012 rate of 22%. Poverty rate estimates for female-headed households was the highest of all groups living in poverty at 43.2%, followed closely by people with related children under age 18.

Figure 1: Kern County Poverty Rates by Group, 2013

Most of the cities in Kern County had higher poverty rates than the state of California. As shown in the figure below, the largely rural and agriculturally based cities of Arvin, McFarland, and Wasco experienced the highest level of poverty in 2013 and were well above the state level. Tehachapi, Ridgecrest, and Taft had the lowest rates in the county, with Tehachapi and Ridgecrest below the state poverty rates.

Figure 2: Poverty by Kern County Cities, 2013

Children and Poverty

Research shows that the more time children live in poverty, the more likely it is that they will remain in poverty as adults. According to research conducted by Colombia University's National Center for Children in Poverty, 45% of those who spent at least half of their childhood in poverty were still poor at age 35. This has significant implications when considering the poverty rates for Kern County children.

According to the U. S. Census Bureau, 2013 American Community Survey 1-Year Estimates, there were 28,786 children in Kern County ages 0-5 years whose income in the past 12 months was below the poverty level. There were slightly more females than males in this group.

CAPK GIS Maps

CAPK is currently using Geographic Information Systems (GIS) to map the location of families below poverty with at least one child under 5 years of age. These maps are derived from U.S. Census Bureau, American Community Survey estimates, found in Table B17010, U.S. Census ACS 2009-2013 estimates at the Block Group level. CAPK WIC and Head Start/Early Head Start locations are shown on the maps to better understand service areas and distances to each center.

Poverty and Race

In 2013 poverty rates for people who identify as Black or African Americans and Other Race groups were disproportionately higher than other racial groups. Of the 41,181 Black or African American residents in Kern County, 36.8% were living in poverty, and of the 107,343 Some Other Race group, 28,159 or 26.2% were living in poverty. For the Hispanic or Latino population, 119,570 of 406,288 or 29.4% were living in poverty.

Table 7: Poverty Status in Past 12 Months by Race/Ethnicity, 2013

Working Poor

The face of poverty in the United States has changed greatly over the last decade. In a report presented at the National Community Action Partnership Mega Trends Learning Cluster, *Inequality in America*, former Secretary of Labor Robert Reich discusses trends of those living in poverty in the U.S. According to Reich, as the median family income continues to drop, an estimated 65% of U.S. families live pay check to pay check. He goes on to say that a significant number of people in poverty are working but are unable to earn enough to lift themselves out of poverty. Reich also claims that about 55% of all Americans aged 25 to 60 years have experienced at least one year of poverty or near poverty (below 150% of the poverty line), and at least half of all U.S. children have relied on food stamps at least once in their lifetime.

This data is supported by the U.S. Bureau of Labor Statistics which reported that in 2011, 41.5% of those who were living in poverty in the U.S. were full-time employees (worked 50+ weeks a year). Americans living below poverty level reflect the following statistics:

- 12.8 million in labor force;
- 2.3 million did not work during the year;
- 10.6 million worked; and
- 4.4 million worked full time more than 50 weeks.

According to the California Budget and Policy Center, *Five Facts Everyone Should Know About Poverty*, the majority of families that live in poverty are working and that 67% of those families have one or more workers supporting them. The key reasons cited for working families remaining in poverty are a lack of good paying jobs and the low minimum wage. In Kern County, an estimated 22.1% of residents who are 16 years of age or over are employed and living in poverty.

Participation in Government Programs

A comparison of participation in government programs from 2012 to 2013, shows that an estimated 7.9% of all households in Kern County received Supplemental Security Income (SSI) in 2012, compared to 7% of households in 2013. For that same period, the percentage of households receiving cash public assistance remained unchanged at 7%. However, the percentage of recipients of Supplemental Nutrition Assistance Program (SNAP/food stamps) benefits more than doubled from 7% in 2012 to 14.7% in 2013. This increase may be due in part to increased outreach, education, and enrollment efforts throughout the state.

Industry and Employment

Kern County census data estimates for 2013 indicate that approximately half of Kern County residents were in the labor force, and of those, 43% were employed. When looking at employment by age, those who are age 45 to 54 have the highest rate of employment for their age group at 64.1%. The following table gives a breakdown of participation in the labor force and employment by age for the county.

Table 8: Kern County Employment by Age, 2013

Age	Participation in Labor Force	Employed
20 to 24 years	68.2%	53.7%
25 to 44 years	73.3%	63.5%
45 to 54 years	72.0%	64.1%
55 to 64 years	56.6%	51.6%
65 to 74 years	22.2%	20.3%
75 years and over	5.7%	5.0%
Total Average	49.7%	43.0%

An estimated 15.9% of the employed population worked in the agriculture and mining industries in 2013, which was a minor decrease over the 2012 rate of 16.4%. Employment levels in educational services, health care, and social assistance remained relatively unchanged at 19.6% during 2013. Employment in the retail trades industry remained unchanged from 10.5% in 2012, and the construction industry increased slightly to 6.1% from 5.7%.

Kern County is well known for its agricultural and oil industries. The county's total crop value in 2012 ranked Kern County second in both California and the United States. According to the Kern County Farm Bureau 2012 Kern County Agricultural Crop Report, Kern County's top five crops by gross value were grapes, almonds, milk, vegetables, and pistachios.

In addition to agriculture, Kern County leads the state in oil and natural gas production. According to the Greater Bakersfield Chamber of Commerce, Kern produces roughly 75% of California's in-state oil and nearly 58% of the state's total natural gas. California's top five oil-producing fields are located in Kern County, and three of those fields are ranked in the top ten producing oil fields in the nation. In fact, if Kern County were a state, it would rank 4th in the nation for oil production.

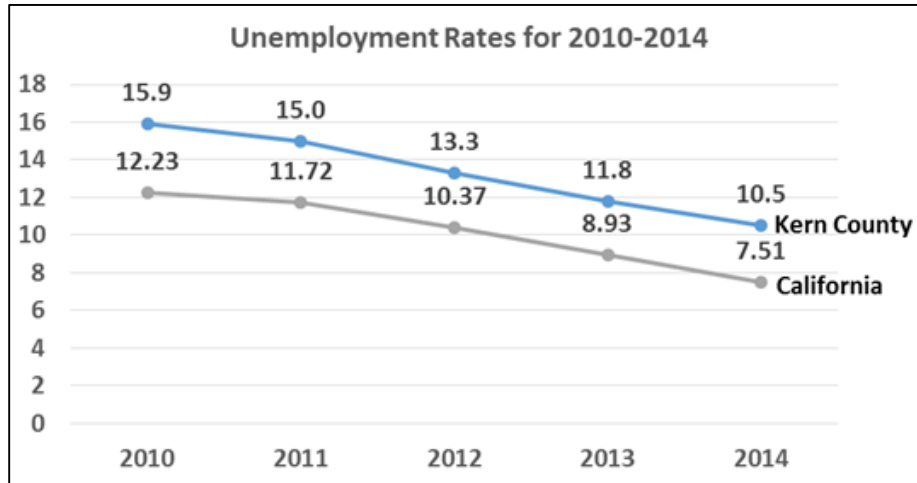

Consistent with its historically natural resource-based economy, Kern County is in the foreground of the alternative energy industry, becoming the site for some of the largest wind farms and solar arrays in the region. The ongoing development and operation of these facilities are expected to provide significant employment opportunities, especially in the eastern region of the county. As a result of the expansion in wind and solar energy, local colleges and vocational institutions are expanding programs in these fields of study.

Unemployment

Although the economy has improved over the last five years, Kern County continues to lag behind in employment compared to the rest of the state. Recent cutbacks in the oil industry and agriculture are

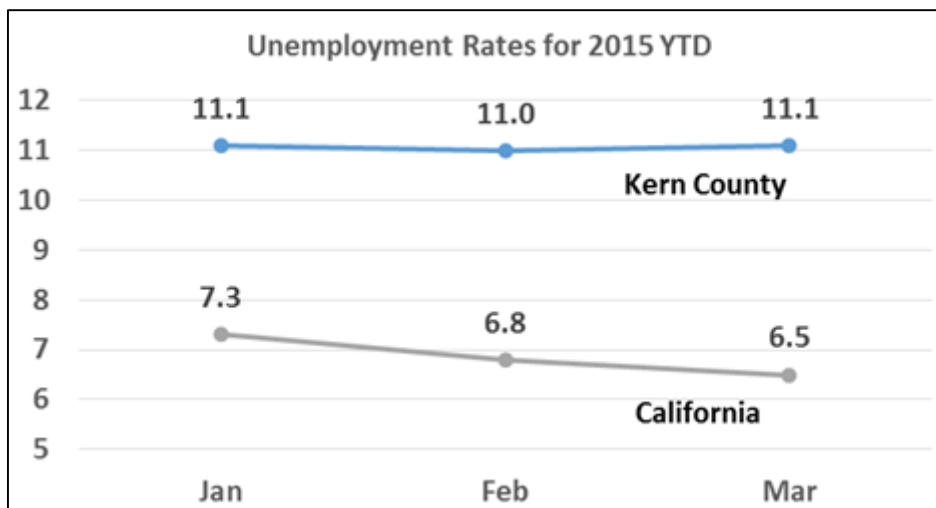

further impacting unemployment in Kern County. According to the California Employment Development Department, the annual average of the civilian workforce that was unemployed in Kern County for 2014 was 10.5%, compared to 7.51% for the state. Kern County unemployment rates are consistently higher than the state rates.

Figure 3: Kern County and California Unemployment Rate, 2010-2014

For 2015 the statewide economic improvements are not shared in Kern County. In January – March 2015, the average unemployment rate for Kern was 11.1% versus 6.9% for California. This may be due to economic issues affecting Kern's largest industries, oil and gas production and agriculture, both of which have seen declines in prices and/or production. Due to the falling oil prices, oil companies have had instituted massive layoffs throughout the country, including Kern County. Also, California is in the midst of a severe drought which has adversely impacted the agricultural industry.

Figure 4: Kern County and California Unemployment Rate, YTD 2015

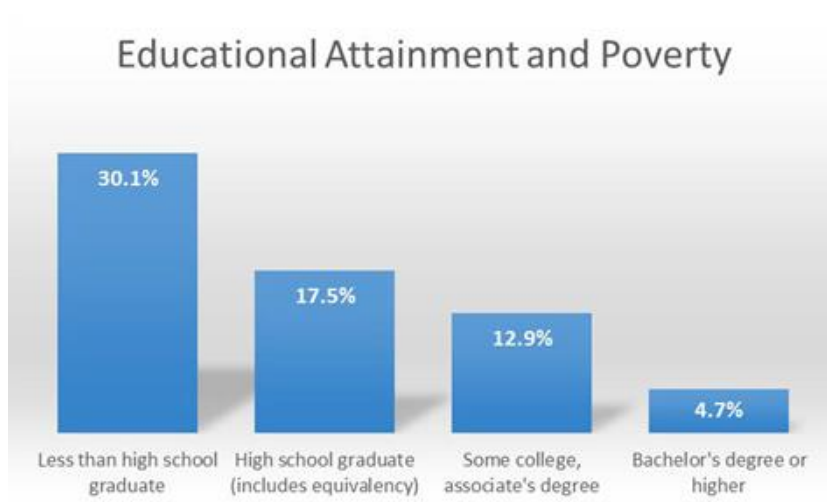

Educational Attainment

According to the U.S. Census Bureau, American Community Survey, estimated educational attainment rates for Kern County residents continue to be lower than for the state of California. In 2013, 72.4% of all residents in Kern County were high school graduates or higher, compared to 81.2% for the state. The following figures compare California residents' educational attainment rates with Kern County residents 25 years and over.

Table 9: Educational Attainment Population over Age 25, 2013

Attainment	Kern	California
Less than 9th grade	14.5%	10.2%
9th to 12th grade, no diploma	13.0%	8.5%
High school graduate (includes equivalency)	26.5%	20.7%
Some college, no degree	23.9%	22.1%
Associate's degree	7.0%	7.8%
Bachelor's degree	9.9%	19.4%
Graduate or professional degree	5.1%	11.2%

The lack of higher educational attainment has far-reaching implications for Kern residents. According to an analysis by The PEW Charitable Trust, *Pursuing the American Dream; Economic Mobility across Generations*, a four-year college degree encourages upward mobility from the lower rungs of society and prevents downward mobility from the middle and top. The report states that about 47% of people who are raised in the bottom quartile of the family income ladder who do not get a college degree stay at that level compared to 10% who have earned a college degree. Also, about 39% of those raised in the middle-income ladder who don't get a college degree move down, while 22% with a degree stay in the middle or advance. According to the U.S. Census Community Data for Kern County, 47.5% of those who are 25 years of age or older and have a high school diploma (includes GED) or less live in poverty compared to 4.7% with a bachelor's degree or higher.

Early Childhood Education

In the Assessment of Early Childhood Education in Kern County 2013-2014³², the capacity for Kern County early childhood services were as follows:

- 6,790 spaces in full day, full year nonsubsidized programs;
- 2,182 spaces in full day, full year subsidized programs;
- 322 spaces in part day non-subsidized enrichment programs;
- 4,334 spaces in part day subsidized enrichment programs;
- 7,660 spaces in licensed family child care homes;
- 14,953 spaces in before/after school programs; and
- 4,841 children of low-income families being served through voucher programs.

Early education for children has a great impact on their future by preparing them for success in school and life. However, there has been a decrease in early care for children. As reported by the Early Childhood Council of Kern, a 2014 report released by the California Legislative Analyst's Office, states that between 2008 and 2013, California lost 3,880 (or 10%) licensed family child care homes and 312 nonsubsidized child development centers. In addition, 224 subsidized providers didn't renew their California Department of Education contracts.

Housing

In 2013 there was a total of 285,895 housing units in Kern County. Of these housing units, 255,271 or 89.3% were occupied, and 30,624 or 10.7% were vacant. Of the 285,895 occupied housing units, 58.0% were owner-occupied and 42.0% were renter-occupied.

The demand for affordable housing in Kern County is greater than the available inventory. According to the U.S. Department of Housing and Urban Development, families who pay more than 30% of their income for housing are considered cost burdened and may have difficulty affording necessities such as food, clothing, transportation, and medical care¹¹. Based on the 2013 American Community Survey estimates, 30.6% of all Kern County homeowners with a mortgage paid 35% or more of their household income on housing. Renters paid an even higher percentage of their income on housing, with 47.1% paying 35% or more of their household income on rent.

The Housing Authority of the County of Kern indicates that there are 15,134 households in the Kern County and 5,324 households in the city of Bakersfield that have extremely low incomes or very low incomes and have a rent cost burden that exceeds 50% of their income. In addition, there are 28,885 "non-homeless, special needs" households that need housing in Kern County with another 8,837 in the city of Bakersfield. As of January 2013, there were 7,005 households on the Section 8 waiting list and 8,005 on the Public Housing waiting list.

Homelessness

The annual Homeless Census, conducted in a 24-hour period by the Kern County Homeless Collaborative, revealed that on any given night of 2015, there were an estimated 953 people living in homelessness in Kern County, and of those, 150 were children. According to this data, homelessness decreased 4% from 2014 and decreased 38% from 2007. The average length of time that people remain homeless in Kern County is 29 months, with people living in shelters averaging 17 months, which shows that people who access shelters have better housing outcomes than those who live unsheltered.

Substance abuse and health issues continue to be a concern for people living in homelessness with about 50% reporting substance abuse issues and 10% reporting a chronic illness. In addition, at least 20% report having a mental health condition and 60% of people with substance abuse or mental health issues live unsheltered.

One area of concern is the lack of available beds especially in rural areas of the county. There are only two emergency homeless shelters in metropolitan Bakersfield. One shelter is the Mission at Kern County which provides emergency shelter for 200 men, and the other is the Bakersfield Homeless Center, which provides emergency shelter to 170 men, women, and families. With the exception of emergency housing specifically for victims of domestic violence and their children, there are no emergency shelters in the rural areas of Kern County.

Food Insecurity

According to the United States Department of Agriculture, food insecurity occurs when there are reports of multiple indications of disrupted and reduced food intake. The California Food Policy Advocates reports that in 2012, 54% of adults in Kern County were food insecure compared to 42% for the state. The Food Research and Action Center's (FRAC) Food Hardship in America 2012 Report identified Bakersfield as first among the 100 largest metropolitan cities in the U.S. for food insecurity. According to the report, 26.7% of respondents in Bakersfield said they had experienced difficulties feeding themselves or their family. Food inflation was another major factor identified by the authors as contributing to food hardship. The overall inflation rate stayed under control, but the government's cheapest hypothetical diet, the Thrifty Food Plan, was the basis for the Supplemental Nutrition Assistance Program (SNAP) benefits before 2009, whereas the USDA's Low-Cost Food Plan would provide a more appropriate basis for SNAP allotments.

At mild to moderate levels, food insecurity results in anxiety, limited nutritional options, and trade-offs between food and other basic needs. More severe cases of food insecurity may result in hunger and extended periods of time without food. To maintain caloric intake, adults who experience food insecurity tend to limit the variety of their food and concentrate on a few low-cost, energy-dense, and nutritionally poor foods such as refined carbohydrates and foods with added sugars, fats, and sodium. Calorie for calorie, these foods cost less than nutritionally rich perishable items such as fruits, vegetables, and dairy products and contribute to instances of obesity and type II diabetes. According

to the California Food Policy Advocates Report, 40,000 individuals in Kern County have type II diabetes, 57.1% of the adult population is overweight or obese, and 11.2% of the child population is overweight for their age.

Identifying solutions to these issues will be a complex process. According to FRAC, economic growth, and job creation, along with better wages, are vital elements to improve food insecurity for lower-income workers. Another key factor is strengthening the SNAP/food stamp program to reach communities that are unaware of the program and its benefits. This is especially important in the quest to end childhood hunger, an issue that negatively impacts what may be the single best path out of poverty—higher educational attainment.

The prevalence of hunger and food insecurity in Kern County is further documented by a 2009 UCLA Center for Health Policy Research, California Health Interview Survey (CHIS), which profiles hunger and food insecurity in California counties. The study found that 33.9% of Kern County adults with income <200% of the Federal Poverty Level were food insecure. Feeding America, a nonprofit anti-hunger organization, estimates that 17.1% of Kern County households experience food insecurity in a given year, which would indicate 143,000 food-insecure individuals.

Such levels of food insecurity and hunger imply public health and economic costs to both communities and individuals through the following conditions:

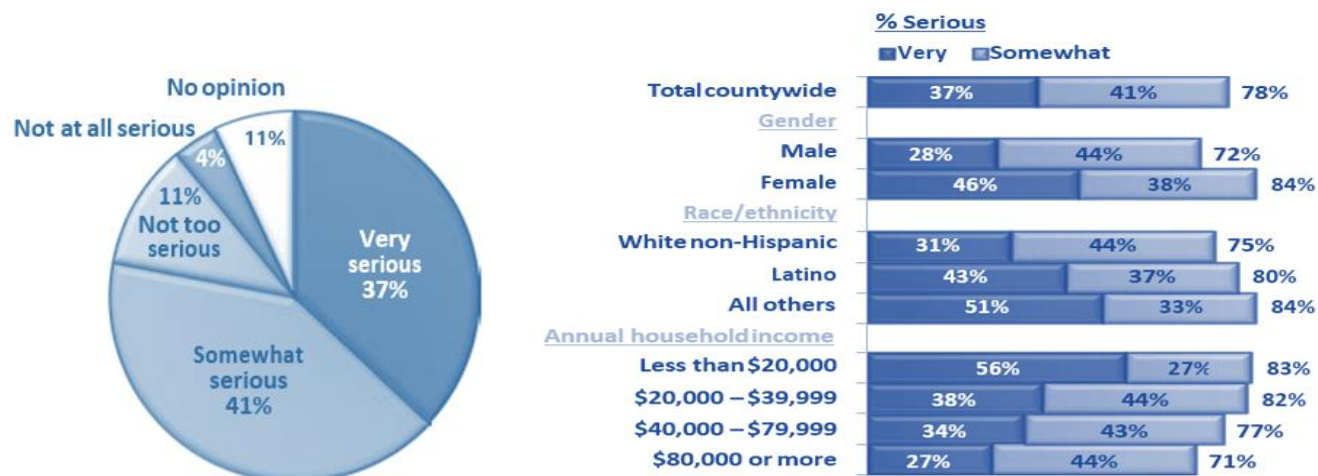

- Lower cognitive development and learning capacity in children;
- Impaired work performance and earnings potential in adults; and
- Lower intake of food energy and key nutrients, leading to increased medical costs, disability, and premature death due to diet-related illnesses.

The Kern Food Policy Council (KFPC) provides a forum for individuals from many sectors of the community food system to promote community-wide healthy eating through education, advocacy, and access. The Council is sponsored by the United Way of Kern County, the California Endowment, and CAPK, with support from many other organizations in the community. The California Endowment, through Field Research Corporation, conducted a poll of 1,200 registered voters to seek information about food insecurity and policy within Kern County. One finding of interest from this poll was the awareness that people in the community have of hunger issues in Kern County. Of those polled, 78% perceived “Families not having enough to

eat” as being a *Somewhat* to *Very Serious* issue. As income increased, the seriousness of the issue decreased. There was also a marked difference in how the issue was perceived by race as represented in the following figure:

Figure 5: Perceived Seriousness of Food Insecurity

CAPK actively participates in the Kern Food Policy Council as a founding member, along with United Way of Kern County, and The California Endowment. CAPK staff drafted the first part of the Community Food Report in 2014. This report provides general food assessment information for Kern County. Some key findings in the report are as follows:

- A recent U.S. Department of Agriculture (USDA) study estimated low-income households with incomes below 185% of the poverty threshold are 34.3% food insecure; that is, they did not have access at all times to enough food for an active and healthy life, with no need for recourse to emergency food sources or other extraordinary coping behaviors to meet their basic food needs.
- Socioeconomic and demographic factors, including 1) household size; 2) homeownership; 3) educational attainment; 4) savings rates; 5) access to credit; and 6) health insurance, have been shown to be important determinants of food security, independent of household income.
- Legislative changes associated with welfare reform and Federal farm supports have created an unfavorable policy environment for SNAP by cutting \$8.6 billion over 10 years. These cuts will translate into a loss of about \$90 per month for a qualifying family food budget. Funding for school food projects in the 2014 Farm Bill and school garden programs is included.

Births to Adolescents

As reported in the Information and Strategic Planning Guide, in 2012 Kern County had the second highest birth rate for mothers 15 to 19 years of age in the state, ranking 57th of the 58 counties in California. In 2009 there were an estimated 3.7% of births to teenage females and 4.9% in 2013. Among this group, the birth rate was disproportionately high for minorities, as seen in the table on the following page.

Table 10: Births to Adolescent Females aged 15-19 by Race, 2009-2013

Year	All	White	African American	Hispanic/Latino
2013	4.9	3.4	8.0	5.4

Health

Overall, the health of Kern County residents falls far behind residents of other California counties. According to the County Health Rankings and Roadmaps for 2015, Kern County ranks 51 out of 58 California counties in “Health Outcomes” and 55 out of 58 in “Health Factors.” According to this study, health factors that affect the health of people living in Kern County include many of the socio-economic factors previously discussed, such as educational attainment, unemployment, and income inequality.

The 2015 SocioNeeds Index, created by the Healthy Communities Institute provides correlations between socioeconomic need and poor health outcomes, reported by zip codes. This information is indexed from 1 (lowest need) to 100 (highest need) and then ranked from 1 (lowest need) to 5 (highest need). When looking at Kern County’s 40 zip codes in the index, over half are in the 4 and 5 rankings with 7 areas with indexes of 99.2 to 99.7.

The following table found on the following page gives a summary of the socio needs index for Kern County.

Environmental Health

According to the American Lung Association's *2015 State of the Air* report, Kern County has some of the worst air quality in the nation. The rankings were based on three types of pollutants:

- Short-term particulate: Episodes of increased particulates caused by events such as wild fires.
- Year-round particulate: chronic exposure to particulates caused by things like soot, diesel exhaust, chemicals, metals, and aerosols.
- Ozone: mostly attributed to wood burning and auto exhaust.

Kern County ranked as having the second worst short-term and year-round particle pollution and fourth worst ozone pollution in the nation. The current drought exacerbates this problem of short-term particulate matter due to an increase in wildfires and increased weather patterns that trap the pollutants in the lower atmosphere.

These particulates are of special concern for Kern County residents because of the significant health risks. As mentioned in this report, Kern County has significantly high rates of death for respiratory conditions and heart disease, which are known to be related to poor air quality. Also, as noted in this report, Kern has a high poverty rate, especially in our rural farming communities, which is linked to lower access to health care. A last factor to consider is that Kern's main industries, agriculture, and oil, are major contributors to the poor air quality.

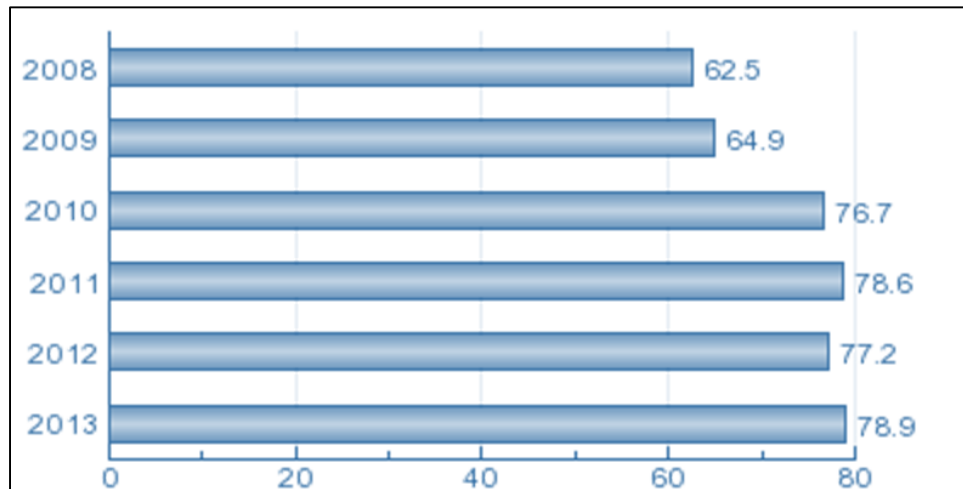

Asthma rates for Kern County are ranked among the highest in the state as indicated by the number of asthma hospitalizations. According to the 2012/2013 Healthy Kern Community Health Assessment, 12.9 per 10,000 people were hospitalized for asthma. Rates for children were especially high with 23.6 per 10,000 children hospitalized and 134.8 per 10,000 children visiting emergency rooms. Children are more vulnerable than adults to the effects of poor air quality due to more permeable skin and fragile systems. Poor air quality also places children at risk of increased cognitive defects and cancer.

HIV

According to Healthy Kern, newly diagnosed HIV cases have shown a steady increase over the last six years. For 2013 there were 78.9 per 100,000 or about 631 people diagnosed.

Figure 6: HIV Prevalence Rate Time Series Cases/100,000 Population

The prevalence of HIV/AIDS has increased over the last few years due to people living longer. Key to living a healthier and longer life with HIV is an early diagnosis. The Centers for Disease Control, however, estimates that 1 out of 5 people with the disease do not know they are infected. People at highest risk of contracting HIV continue to be men of all races who have sex with other men, with African Americans and Hispanic/Latinos disproportionately affected. People in the under-30 age group have the highest occurrence of HIV.

Health Insurance

In 2013, 79.8% of the Kern County civilian noninstitutionalized population had health insurance coverage and 20.2% did not. For those under 18 years of age, 9.8% had no health insurance coverage. There was a slight decrease from the prior year as an estimated 80.7% of all Kern County residents had coverage.

Mortality

According to the California Department of Public Health, the death rate for Kern County is considerably higher than the rate for the state of California. In comparison to other California counties, Kern consistently ranks in the bottom third for leading causes of death. Especially noteworthy are that two of the leading causes of death, coronary heart disease and diabetes, are strong indicators of poor diet and nutrition and which are particularly impactful among low-income populations.

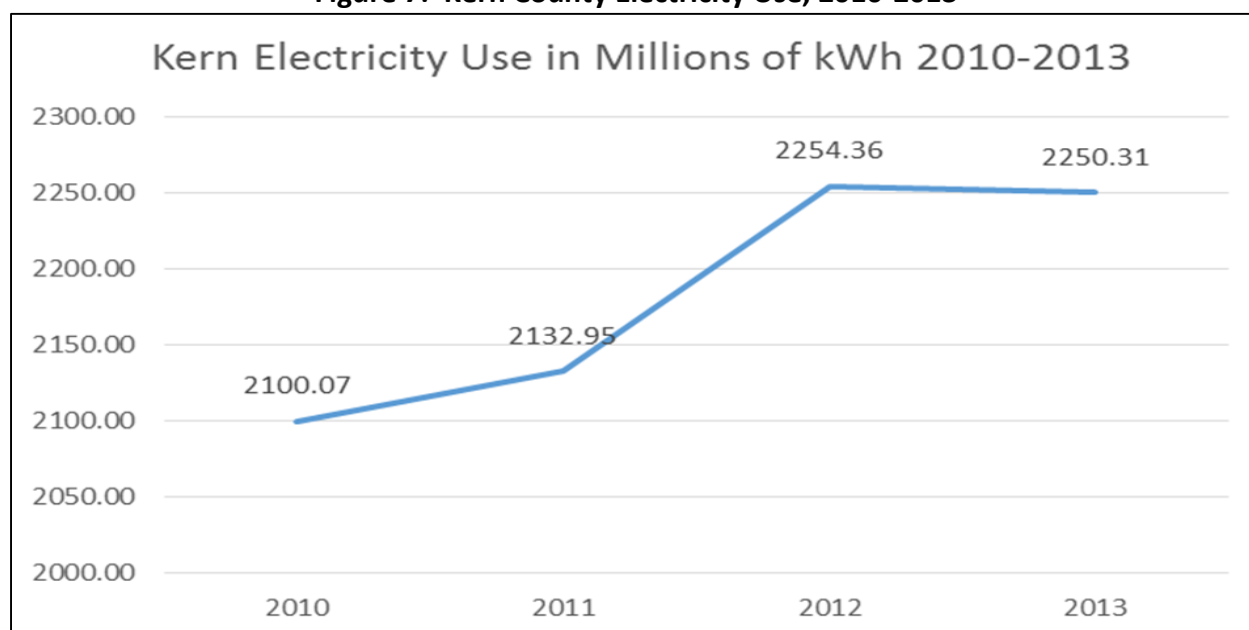

Table 13: Age-Adjusted Death Rates per 100,000, 2009-2011

Energy Use

Residents of Kern County use more electricity than most counties in the state with the 11th highest electricity consumption of the 58 counties. Kern has also seen big increases in electricity use over time with a 6.7% increase from 2010 to 2013.

Figure 7: Kern County Electricity Use, 2010-2013

Due to the rate structure of Pacific Gas and Electric Company (PG&E) and Southern California Edison, higher electric use can have a serious effect on low-income families. PG&E uses a tiered rate plan and sets the base rate for customers in the area by overall use as well as individual household use. This higher rate structure is evident when comparing utility costs of Bakersfield, Kern's major metropolitan area, to Fresno and Stockton, the cities closest to Kern in geography and population in the PG&E service area. The average cost of utilities (electric, heating, water, and garbage) is more than twice as high in Bakersfield than the other two cities, as illustrated in the figure on the following page.

Figure 8: Average Monthly Utility Costs, 2015

Juvenile Crime

Crime rates for juveniles who were arrested for felonies is higher for Kern County when compared to the state. In 2013, 8.9% of youth in Kern County were arrested for felony offenses as compared to 7.5% for the state. Gang involvement can greatly increase the chance of youths committing violent crimes. According to the Kern County Superintendent of Schools, there are an estimated 267 gangs in Kern County with over 13,000 validated gang members (including those in prisons) in the county.

Part of the gang culture is to recruit young new members. According to the *California Healthy Kids Survey 2009-2011*, 8.4% of Kern County children in the 7th grade identified themselves as gang members. Of those children in high school, 9.0% of 9th grade and 8.2% of 11th-grade students identified themselves as gang members. Although only a small percentage of students identified themselves as gang members, gang involvement and influence pose a threat to Kern County's children. In fact, most violent crimes committed by youths are committed by those involved in gangs. Gang involvement is also disproportionate by race, as seen in the table on the following page, with African American/Black youths more than twice as likely as White youths to be gang involved.

Table 14: Youth Gang Involvement by Race

Race/Ethnicity	Percent
African American/Black	12.5%
Native Hawaiian/Pacific Islander	12.3%
American Indian/Alaska Native	10.8%
Multiracial	9.3%
Hispanic/Latino	9.2%
Other	8.9%
Asian	6.3%
White	5.8%

There are multiple reasons that youths join gangs. The Office of Juvenile Justice and Delinquency Prevention (OJJDP) cites the following as the most common reasons youths join gangs: protection, enjoyment, respect, money, and/or because a friend is in a gang. Strategies to prevent gang involvement should include building communities that strengthen families and schools, improve supervision, improve teacher and parent training to manage disruptive youths, and improve interpersonal skills for youths.

Appendix D: Burning Platform

In our great country, there are those that fall through the cracks and have difficulty accessing the “American Dream.” Our society is predicated on a system of fairness, opportunity and justice. Those that are successful must ensure the continuance of the system. This is accomplished through engagement and action in the community, while working towards a community that offers hope and opportunity to everyone.

Our community continues to be negatively impacted by harsh economic downturns, high levels of poverty, manifested by food insecurity, inadequate housing, poor health conditions, elevated crime rates, and low educational attainment.

According to American Fact Finder (U.S. Census), the poverty rate of Kern County residents was 24.5% in 2011. This means approximately 208,669 people live in poverty in Kern County; of which 73,660 are children. Despite the fact that we are one of the world’s most productive agricultural communities, Bakersfield ranks highest among major cities in the United States for food hardship, and over 162,000 individuals face food insecurity in Kern County. In addition, the adult obesity rate in Kern County is 29%, or 173,077 individuals, compared with a national rate of 25%. Diabetes in Kern County has a rate of 9%, or 70,200 individuals, as compared to a 7% rate nationally. During the 2010-2011 School year, 36,789 7th, 8th, and 9th graders completing the California Physical Fitness testing had unhealthy body composition base on Individual Body Mass Index. That is 49.5% of those tested were at an unhealthy level. In Kern County for 2011 there were 17,988 children reported for suspected child abuse, a rate of 70.8 children per 1,000, compared to the state rate of 51.2 per 1,000. For substantiated rates of child abuse Kern’s rate was 17.2 per 1,000 as compared to a rate of 9.1 for the state of California. In Kern County, 72.8% of adult residents have a high school diploma or equivalent and 14.8% have a four-year college degree or higher. This compares to state rates of 81.1% for high school diplomas and 30.3% for college degrees.

This is not acceptable. We can and must do better.

Our Food Bank staff have witnessed former volunteers, who had previously assisted in distributing food to those in need, show up on distribution days lines, seeking emergency food assistance for themselves and their families. It is a perilous line that many face between being self-sufficient today and being in need of assistance tomorrow due to a job loss, foreclosure, or illness in the family.

We are committed to alleviating the needs of our most vulnerable residents. We believe in providing services that will improve the quality of life and offer individuals opportunities for growth and self-sufficiency. Recent economic challenges have resulted in drastic budget reductions to many of the programs offered by CAPK and others. In order to continue our efforts, it is imperative that we review how we operate, re-examine our priorities and strategies, and be innovative in the use of our

resources and delivery of services. We must explore new opportunities within our core programs. We must call upon community leaders from the private sector, government, and philanthropy to take action and become engaged in solving our community issues together.

As an organization, CAPK is committed to refocusing our strategies so that we can continue to meet families and children at their point of need and provide them with the means and tools to move out of poverty. CAPK must change to embrace the new environment. This challenge is now upon all of us.

COMMUNITY ACTION PARTNERSHIP OF KERN

MEMORANDUM

To: Board of Directors

From: Michele Nowell, Director of Human Resources *mn*

Date: October 7, 2016

Subject: *Agenda Item VI(d):* Employee Health Insurance & Benefit Plan Renewal for Calendar Year 2017 – Action Item

Staff has had several meetings with Wells Fargo Insurance regarding our Employee Health Insurance and Benefit Plan renewal for calendar year 2017. We worked diligently on trying to strike a balance between rising insurance costs, and plan features. For 2017 staff is recommending to continue our medical and vision plan with Blue Shield. The bullet points below are from Wells Fargo Insurance 2017 power point document which is attached.

Overview of the CAPK Medical Plan with Blue Shield of California and proposed costs for 2017

- Current enrollment in the CAPK medical plan is 505 employees. The majority of the enrollment is with the Blue Shield Trio HMO plan (413).
- Current annual costs are \$4.7 million annually or \$9,394 per employee per year.
- If CAPK were to renew the current plan with no changes, the annual cost will increase to \$5.1 million or 7.8%. This would increase annual health care premium by \$370,293. CAPK shares this cost with enrolled employees so the impact to CAPK would be \$263,393.
- By making several small changes to the medical plan design, the overall premium would reduce to \$5 million, or a 6.4% increase. The premium increase would reduce to \$302,525 and the impact to CAPK would fall to \$215,223. This option would also reduce the amount employees would pay through payroll deductions compared to renewing the program without modifications.
- Wells Fargo conducted a high level marketing of our plans and no other insurer could match the proposed renewal from Blue Shield. Kaiser indicated that their costs would be 10% to 15% above the renewal and declined to provide a formal quote.
- The staff has also reviewed other plan design options (Page 5 of the attached document) but the recommended program for 2017 is Option 3.
- We further recommend that the current subsidy percentages that we use for sharing costs with employees be retained for 2017. The proposed employee costs are shown on page 7 of the attached document.

CAPK's dental benefit plan and proposed costs for 2017.

- Current enrollment in the CAPK dental plan is 536 employees. The majority of the enrollment is with the MetLife DHMO plan (458 employees).
- Current annual costs are \$189,584 annually or \$354 per employee per year.
- If CAPK renews the current plan with no changes the annual cost will increase to \$198,284 or 4.6%. This would increase annual dental premium by \$8,700. CAPK shares this cost with enrolled employees so the impact to CAPK would be \$3,598.
- Wells Fargo conducted a marketing of our dental plan. The best alternative to MetLife was determined to be United Concordia (UCCI). The annual cost of the UCCI dental plan is \$180,114 or 5% below current. This would reduce total dental premium by \$9,470 and would reduce CAPK costs by \$1,671. Employee costs would fall by \$7,799 compared to current costs with the UCCI option.
- We conducted a comparison of dentists that CAPK employees utilize and found that over 80% of the dentists currently utilized would continue to be in the UCCI dental plan.
- UCCI is currently contacting the dentists that fall outside of the network and they hope to increase the number of available dentists in the Bakersfield area before the 1/1/2017 effective date.
- The coverage offered by UCCI is equal to or better than is currently offered by MetLife.

CAPK offers life and disability insurance to employees through The Hartford. The annual cost of this program is \$45,879 and this cost will not change for 2017.

Recommendation:

Staff recommends the Board of Directors approves the Employee Health Insurance & Benefit Plan Renewal and authorize staff to enter into agreements for the following items for the 2017 employee benefit year:

- 1) Remain with Blue Shield for medical and vision coverage with the plan changes outlined as option 3.
- 2) Change to United Concordia for dental.
- 3) Continue all Life, ADD, STD, LTD, and volunteer life with Hartford.

The annual cost of the UCCI dental plan is \$180,114 or 5% below current. This would reduce total dental premium by \$9,470 and would reduce CAPK costs by \$1,671. Employee costs would fall by \$7,799 compared to current costs with the UCCI option.
 - We conducted a comparison of dentists that CAPK employees utilize and found that over 80% of the dentists currently utilized would continue to be in the UCCI dental plan.
 - UCCI is currently contacting the dentists that fall outside of the network and they hope to increase the number of available dentists in the Bakersfield area before the 1/1/2017 effective date.
 - The coverage offered by UCCI is equal to or better than is currently offered by MetLife.
 - The staff recommends a change to UCCI for 2017 pending approval by the Board.
- CAPK offers life and disability insurance to employees through The Hartford. The annual cost of this program is \$45,879 and this cost will not change for 2017.

Transparency and Disclosure

Insurance is a highly regulated, competitive industry that fuels the US economy and protects individuals and commercial entities from losses. There is nothing more important to our industry and to Wells Fargo Insurance than maintaining the trust of our customers and conducting business with the utmost integrity. We believe that our leadership role on disclosure should tie directly to our core values. Among these we state that we:

- Value and reward open, honest, two-way communication
- Do what is right for the customer
- Talk and act with the customer in mind
- Exceed our customers' expectations

Wells Fargo Insurance is proactively providing customers with complete transparency on standard and contingent commission income. We receive compensation from the insurance companies we represent when placing your insurance. Our compensation is usually a percentage of the premium you pay for your insurance policy or bond (a "commission"), which is paid to us by the insurance companies for placing and servicing your insurance or bonds with them. We also may receive fees agreed to in writing from our customers. Intermediaries, such as wholesale brokers, may sometimes be used to access certain insurance companies. Such intermediaries will allocate a portion of the compensation from the insurance companies to us and may, in some cases, be an affiliated company.

We receive payments from insurance companies to defray the cost of services provided for them, including advertising, training, certain employee compensation, and other expenses.

Consistent with longstanding industry practice, we may earn interest on premiums received from you and forwarded to the insurance companies through our bank accounts. We may also earn interest when the insurance company issues you a refund and that refund is processed through our bank accounts. We retain the interest earnings on our bank accounts.

Some of the insurance companies we represent may pay us additional commissions, sometimes referred to as contingent or bonus commissions, which may be based on the total volume of business we sell for them, and/or the growth rate of that business, retention rate, claims loss ratio, or other factors considering our entire book of business with an insurance company for a designated period of time.

The amount of premium you pay for a policy may change over the term of the policy. For example, your endorsement requests will affect the premium. Should the premium for any of your policies change, the amount of compensation paid to us by the insurance company would change accordingly.

From: Yolanda Gonzales, Director of Head Start / State Child Development
Date: October 7, 2016
Subject: *Agenda Item VI(f):* Early Head Start Child Development Partnership Agreement with Kern Community College District – Action Item

CAPK submitted a Year 2 continuation grant requesting to serve 56 infant and toddlers to the Administration for Children and Families (ACF) on June 1, 2016. In August 2016, CAPK received the Notice of Award (NOA) *to maintain the Early Head Start Child Care Partnerships*.

The vision of the Office of Head Start is to expand the number and quality of early learning opportunities for infants and toddlers. Early Head Start Child Care Partnership funds have been used to enhance services for young children enrolled in two child development programs in Bakersfield.

Bakersfield College Child Development Center provides center-based services for young children. CAPK will provide enhancement services and funding for 40 toddlers. Per the request of Bakersfield College, due to classroom size requirements and facility design, we have negotiated a reduction of 8 slots. The contract was revised, and we are seeking approval from the Board today. A third partner has been identified for these slots.

Total payments to this entity for child development services rendered through August 31, 2019 shall not exceed \$831,616.

- 09/01/2016 - 10/31/2016 \$56,960
- 11/01/2016 - 08/31/2017 \$227,840
- 09/01/2017 – 08/31/2018 \$273,408
- 09/01/2018 – 08/31/2019 \$273,408

CAPK staff and Bakersfield College (KCCD) have reviewed and agreed on all sections and language of the contract agreement and are in the process of being approved by the Governing Boards.

Recommendation:

Staff recommends that the Board of Directors approves the Early Head Start Child Development Partnership Agreement with Kern Community College District Bakersfield College.

COMMUNITY ACTION PARTNERSHIP OF KERN MEMORANDUM

To: Board of Directors

From: 
Emilio G. Wagner, Director of Operations

Date: October 7, 2016

Subject: *Agenda Item VI(h):* Authorize Aggregate Limit of Preferred Vendor “Game Time”
– Action Item

As part of the efforts of Business Services department and CAPK as a whole to comply with the procurement requirements set out by OMB in 2 CFR 200, as well as CAPK’s internal approval requirements, it has been determined that the preferred vendor Game Time which holds a contract with US Communities, a cooperative purchasing collaborative, will exceed \$200,000 by February 28th, 2017. Currently aggregate expenditures with Game Time are \$41,520.

Game Time is a playground equipment vendor. Several projects in Kern County and San Joaquin County are currently in the estimating and design phase, and must begin construction in October to be completed by the end of January. All estimates and designs provided through the US Communities contract are at no cost or obligation. All pricing for equipment is outlined in the US Communities contract and will be compared to any proposals received by Game Time representatives to ensure compliance with the contract terms.

The proposed not to exceed aggregate amount through February 28th, 2017 is requested to be set at \$450,000.

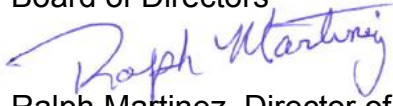

Recommendation:

Staff recommends the Board of Directors approve the Proposed Aggregate Purchase Amount for Game Time and authorize the Executive Director to execute any contracts as a result.

MEMORANDUM

To: Board of Directors

From:  Ralph Martinez, Director of Community Development

Date: October 7, 2016

Subject: *Agenda Item VI(i):* Approval to Use Funds from Wells Fargo Bank for a Microloan and Financial Literacy Pilot Program - Action Item

On July 13th, 2016, a Funding Request Profile was presented to the Executive Committee detailing a funding opportunity from Wells Fargo to initiate a Microloan and Financial Literacy Pilot Program at CAPK. CAPK requested \$30,000 to set up a revolving microloan fund and cover personnel costs for a part-time Financial Literacy Specialist and related program expenses. The Executive Committee members expressed concerns regarding possible violations of consumer lending laws as well as possible liability incurred by CAPK. A robust discussion followed resulting in the Committee requesting that no further development be made regarding this initiative until CAPK staff had provided more information and had a follow-up discussion with the Committee. Staff responded to the request for additional information via email on August 17th, identifying strategies to address the concerns raised:

Possible violation of consumer lending laws:

- Apply to California Department of Business Oversight for Nonprofit Consumer Loan Licensure Exemption, allowing CAPK to make small dollar loans (from \$250-\$2,500)

Liability to CAPK

- Work with CAPK Operations to ensure appropriate insurance coverage, and with CAPK Business Services to draft loan documents with clear language to protect agency and client.
- Make the loan available only to existing CAPK clients referred by program staff, who meet strict eligibility criteria (proof of income, character references, proof that the loan can truly improve their situation, pass review by a 4-member loan committee)

Agenda Item VI(i):
Approval to Use Funds from Wells Fargo Bank
For a Microloan and Financial Literacy Pilot Program
October 7, 2016
Page 2 of 2

- No money goes to the client. The client identifies a vendor and authorizes CAPK to pay the vendor directly for services (for example, the mechanic who repairs the client's car). The client repays CAPK monthly over an agreed term, replenishing the microloan fund.
- Wells Fargo provided these funds as a grant to create a loan fund, and does not expect to recover the funds from CAPK.

Wells Fargo has supported the Bridge Loan Program, a successful microloan program with Community Services Employment Training (CSET), a Community Action Agency in Tulare County, and wishes to work with CAPK to replicate the model in Kern County.

Recommendation:

Staff recommends the Board of Directors approves to use funds (\$20,000 awarded) from Wells Fargo for a Microloan and Financial Literacy Pilot Program, based on positive experiences reported by other agencies who have started a similar service and the above measures to protect CAPK and our clients.

- a. Addition of Business Analyst position to the Energy Organizational Chart – Romala Ramkissoon, Director of Community Services – ***Action Item***

Romala Ramkissoon stated in June the Energy program was experiencing some issues with inventory, and this issue was discussed previously at the committee and Board meetings. Since then the program has consistently been implementing new and revised policies and procedures, and the Fiscal Specialist is responsible for ensuring program compliance. She stated as she over sees the day to day operations, monitor and review inventory as well as contracts and budgets. As Energy currently has five (5) contracts, the program needs to have staff who is solely responsible for monitoring and reviewing the fiscal areas and business responsibilities of the contracts. The program has the

funding to cover the addition of the Business Analyst position to the organizational chart.

Warren Peterson asked if we had the funds available and is this an effort to improve the inventory issue and Romala stated yes, but that it is not just inventory but the program needs someone to make sure that we stay on track to meet the full contract obligations.

Jeremy Tobias stated he feels the new position will help as the Energy program has grown immensely over the past several years, and professional skills are needed for the program's contracts which have become larger and more complex.

Motion was made and seconded to approve the Addition of Business Analyst position to the Energy Organizational Chart. Carried by unanimous vote. (Vigil/Phillely)

Then on January 1, 2017 through June 30, 2017, 211 will start covering 24/7, full coverage. Romala stated Stanislaus County will be the fifth (5th) county that 211 will be providing call handling services since July of last year.

Ana Vigil asked if more people will be hired to handle the additional calls and Romala stated they will hire one additional position, and the additional staff fees were built into the proposal.

- c. Application Status Report and Funding Requests -Ralph Martinez, Director of Community Development – **Action Item**

The other is from Wells Fargo Bank for \$20,000 for financial literacy and microloan program. He stated the financial literacy and microloans program was presented to the Executive Committee in July where they had questions and requested additional information. Since then, the requested information was sent to the committee by email and it was decided to refer the item for discussion at next week's Board of Directors meeting. Ralph stated there was one decline from Walmart State Giving Program for \$34,350 for equipment at the Food Bank.

Tony Martinez motioned to approve the status report with the discussion of Microloans being deferred to the Board of Directors meeting next week. Carried by unanimous vote. (Martinez/Vigil)

Ralph stated there is a funding request to the California Department of Social Services in the amount up to \$444,000 for the Commodity Supplemental Food Program to be operated by the Food Bank. This program will provide food to serve the anticipated caseload of 6,000 seniors. The Food Bank will receive annual financial reimbursement for related costs, for client enrollment, assembly and distribution of food packages, reporting, and nutrition education.

Motion was made and seconded to approve the Funding Request to the California Department of Social Services for the Food Bank. Carried by unanimous vote. (Vigil/Martinez)

Ralph stated the agency is requesting \$209,094 from the Kern County Network for Children (KCNC) to provide Differential Response (DR) services at the East Kern Family Resource Center. The funds will cover personnel costs, client's emergency needs, and other general program and operating costs such as rent, staff travel, communications, etc. for the 12-month grant period. This is a refunding application.

Motion was made and seconded to approve the Funding Request to the Kern County Network for Children for the East Kern County Resource Center. Carried by unanimous vote. (Philly/Martinez)

Ralph stated a funding request is being sent to the Wonderful Foundation for \$18,600 for the Volunteer Income Tax Assistance (VITA) program services in Wasco. The TA is aimed at Head Start programs interested in connecting their clients to financial resources and services

that will help increase their financial well-being. It is expected to begin services in November and last for 12 months. TA is provided in the form of 12 monthly webinars, assistance with program planning tools, coaching to help problem solve, connections to field experts, and peer learning opportunities.

Motion was made and seconded to approve the Funding Request to the Corporation for Enterprise Development for Head Start/State Child Development. Carried by unanimous vote. (Phillely/Vigil)

d. Head Start and Early Head Start Budget to Actual Reports – Donna Holland, Fiscal Manager – **Info Item**

- Kern Head Start & Early Head Start Budget to Actual for the Period Ending August 31, 2016

Donna Holland stated at the end of August, the program is six (6) months into the budget year. A budget revision is pending which incorporates the 10% De Minimis Indirect Cost Rate. In the Personnel and Fringe category, expenditures are less than expected as employees are off in the summer and pay increases were given to Teacher and Associate Teacher positions. She stated funds in the equipment category were budgeted for the purchase for the four program vehicles and three playground/play structures. The non-federal share is at 53% of the budget. The five centers with the highest percentage of the goal met were Franklin, Planz, Fairfax, San Diego, and Casa Loma. The five centers with the lowest percentage of the goal met were Tehachapi, Heritage, Wasco, Rosamond and Mojave.

- San Joaquin Early Head Start Budget to Actual for the Period Ending August 31, 2016

Donna Holland stated the program is seven (7) months into the budget period with a budget revision pending that incorporated the 10% De Minimis Indirect Cost Rate. The Personnel & Fringe benefits are expected to have some savings due to staff turnover. Expenditures in travel are higher than anticipated at this point of the year. Supplies are higher than anticipated at this time and savings have been identified in other categories. Approval was received to carry over funds from the prior year which will be used to make health and safety improvements to centers and to purchase program vehicles and playground equipment.

- Partnerships Early Head Start Child Care Budget to Actual for the Period Ending August 31, 2016

Donna Holland stated the budget revision was approved which incorporates the 10% De Minimis Indirect Cost Rate; redirected savings in various categories to the equipment, supplies, and other categories; and waived \$100,000 of the non-federal share requirement. In Training & Technical Assistance, a request will be made to carry over \$44,500 in unexpended funds.

Motion was made to receive and file the Head Start and Early Head Start Budget to Actual Reports. Carried by unanimous vote. (Martinez/Vigil)

6. **Finance Director Report**

a. Discretionary Fund Update – ***Info Item***

Christine Anami stated there was a slight decrease in the total balance for the month of August and the funds are healthy at \$438,635.11. She stated the agency did need to utilize the previously approved amount held in reserve for the Quad project in the amount of \$15,000, and that was previously approved by the Board.

Warren Peterson asked if the amount that was spent was the exact same amount approved by the Board and Chris stated yes, the Board approved \$15,000, and that is the amount that was spent.

Kathy Philley asked about the late fees for licensing and wanted to know if it was from a staff's oversight. Donna Holland stated it was an oversight from a few years ago and the late fees had been building up over time.

Kathy asked if we were not caught up with our fees over the years and Donna stated we were not in the past for some sites, but today we are now currently up to date.

b. Financial Statements, August 2016 – ***Action Item***

Christine Anami stated the summary of the use of line of credit shows that for 2016, the agency has not had to use the line to the extent that it has in the past, which is a good sign. But we do have to pay a fee for not using the line of credit. The bank accounts are being reconciled on a monthly basis and they are monitoring the cash position daily to ensure there is sufficient cash to meet the agency's obligations. She stated the agency credit cards are not used extensively but are used for travel and emergency purchases and those reports are included. Chris stated the Head Start/Early Head Start budget has set aside \$568,238 to run the child and adult care food program and through August, which represents 50% of the budget, the agency has only had to use 40% of the budget that was set aside. The Division/Program monthly activity report gives a perspective of how many transactions are completed in the finance division. For the month of August, close to 24,000 transactions took place. The agency financial statements demonstrate that the company assets are at almost \$21 million and a key number to recognize is the value of the ending net assets of \$11.9 million, because of requirements on our loan documents. She stated a new schedule has been added for the indirect fund and will be brought to the committee each month.

Motion was made and seconded to approve the Financial Statements, August 2016. Carried by unanimous vote. (Martinez/Philley)

COMMUNITY ACTION PARTNERSHIP OF KERN

MEMORANDUM

To: Budget & Finance Committee

From: 
Romala Ramkissoon, Director of Community Services

Date: September 21, 2016

Subject: *Agenda Item 5b:* Addition of Business Analyst Position to the Energy Organizational Chart – Action Item

At the June B&F Committee meeting I updated the committee on the program's inventory issues and steps that we have taken to address these issues.

We have been consistently implementing our policies and procedures for the inventory and the Fiscal Specialist is responsible for ensuring compliance to these policies and procedures. As the Director I oversee the day to day operations of the Energy program which includes the monitoring and review of the inventory as well as the monitoring and review of our contracts and budgets.

Energy currently has 5 contracts. To ensure that we are fiscally managing these contracts we need to have a staff whose responsibility is solely to monitor and review the fiscal areas of the contracts. We have made a few organization changes to the program over the past year to streamline and improve workflow and I believe the addition of this position will fill this gap in our workflow. I am therefore asking for your approval to add a Business Analyst position to the Energy Organizational chart.

Attached you will find the revised organizational chart and job description for the Business Analyst. With the assistance of the HR Director the position was pointed using CAPK's Compensation Administrative Guide which was approved by the Board in April 2015. It is at a Grade 10 which has a minimum wage rate of \$23.50. The program has the funding to cover the addition of the Business Analyst position to the organizational chart.

Recommendation:

Staff recommends the Budget and Finance Committee approves the Addition of Business Analyst Position to the Energy Organizational Chart.

A. Narrative description of funding request, including goals:

CAPK is applying for up to \$75,000 from Dignity Health to offer the Grow Fit Families program at Shafter Youth Center (SYC), and to continue the program at Friendship House Community Center (FHCC) with increased parent/caregiver involvement. COMMUNITY ACTION PARTNERSHIP OF KERN

MEMORANDUM

To: Budget & Finance Committee

From: Donna Holland, Fiscal Manager
Subject: Agenda Item 5d: Kern Head Start & Early Head Start Budget to Actual for the Period Ending August 31, 2016 - Info Item
Date: September 21, 2016

The following are highlights of the Head Start/Early Head Start Budget to Actual Report for the period March 1, 2016 through August 31, 2016.

Budget Revision

Approval of CAPK's request to revise the budget is pending. The budget revision will accomplish the following:

- Incorporate the 10% De Minimis Indirect Cost Rate

Personnel & Fringe Benefits

Head Start personnel expenditures are somewhat less than expected at this point in the year.

- The majority of Head Start employees are off during the months of June and July; thus, the actual salaries are not expended equally over the program year.
- Pay increases were budgeted for Associate Teacher and Teacher positions, but were not effective until September 12 (after approval of the SEIU contract).

Early Head Start personnel and fringe benefits expenditures are less than expected at this point in the year.

- These costs are partially offset by earned revenues from CAPK's California Department of Education (CDE) General Child Care contract. Revenues trended upward during the spring and early summer months, and historically have decreased over the winter months.
- Pay increases were budgeted for EHS Teacher, but were not effective until September 12 (after approval of the SEIU contract).

Staff continuously monitor for savings in these categories that may be used elsewhere in the program.

Equipment

Funds in this category were budgeted for the purchase of four program vehicles and three playground/shade structures. The budget revision will move the cost of playgrounds to the Supplies category. The program vehicles have not yet been purchased.

Supplies

Purchases of supplies are on track at this point in the program year. For Head Start, purchasing has increased with the onset of the new school year beginning in August, and should be reflected in the report for September 30.

Contractual

- The annual cost of software support and maintenance for the Head Start/Early Head Start child tracking data base is paid in full at the beginning of the fiscal year.
- Legal fees during the SEIU contract negotiation process were somewhat more than estimated.

Other

Expenditures in this category are on track at this point in the program year.

Training & Technical Assistance (T&TA)

Head Start T&TA funds are almost fully expended. Additional funds are budgeted in the base grant for planned training expenses in excess of T&TA funding.

Early Head Start T&TA expenditures are on track at this point in the program year.

Non-Federal Share

With 50% of the budget period elapsed, total Non-Federal Share (the sum of California Department of Education funding and in-kind) is at 53% of budget.

- California Department of Education
Actual and estimated non-federal revenues through August 2016 are at 55% of budget.
- In-Kind
Year-to-date in-kind is at 51% of budget.

The five centers with the highest percentage of goal met were Franklin, Planz, Fairfax, San Diego, and Casa Loma. A total of 26 out of 46 centers and groups met or exceeded 50% of goal.

The five centers with the lowest percentage of goal met were Tehachapi, Heritage, Wasco, Rosamond, and Mojave.

MEMORANDUM

To: Budget & Finance Committee

From: Donna Holland, Fiscal Manager

Subject: Agenda Item 5d: San Joaquin Early Head Start Budget to Actual for the Period
Ending August 31, 2016 - Info Item

Date: September 21, 2016

The following are highlights of the San Joaquin Early Head Start Budget to Actual Report for the period February 1, 2016 through August 31, 2016.

Budget Revision

Approval of CAPK's request to revise the budget is pending from Office of Head Start. The budget revision will accomplish the following:

- Incorporate the 10% De Minimis Indirect Cost Rate;
- Decrease the funded enrollment to 271;
- Waive a portion of the Non-Federal Share requirement.

Personnel & Fringe Benefits

The budget revision will decrease the budget in these categories; however, savings may be realized due to continued staff turnover.

Travel

Expenditures for the purpose of supporting San Joaquin staff are higher than anticipated at this point in the program year. Staff are monitoring this line item and have identified savings in other areas to cover these costs.

Supplies

Expenditures for supplies are higher than anticipated at this point in the program year. Staff are monitoring this line item and have identified savings in other areas to cover these costs.

Contractual

The annual cost of software support and maintenance for the Head Start/Early Head Start child tracking data base is paid in full at the beginning of the fiscal year. In addition, the budget revision will increase the budget in this cost category; thus, expenditures are on track at this point in the year.

Other

Other expenditures are less than anticipated at this point in the year.

Carryover

CAPK's request to carryover funds from the prior budget period was approved. The carryover funds will be used to make health and safety improvements to centers, and to purchase program vehicles and playground equipment.

Training & Technical Assistance

Expenditures supporting training & technical assistance are on track for this point in the program year. Additional training has been planned for later in the budget period, and staff expect to fully expend these funds.

Non-Federal Share

With 58% of the budget period elapsed, the total Non-Federal Share is at 10% of budget.

The San Joaquin Early Head Start program has been challenged in meeting its Non-Federal Share budget for the following primary reasons:

- Not all of its centers are licensed and in operation;
- San Joaquin EHS continues to lose qualified, trained employees to the San Joaquin Office of Education Head Start program, which is offering higher rates of pay.
