Community Action Partnership of Kern - San Joaquin Early Head Start is a relationship-based program. We are committed to fostering positive relationships with children, families, employees and community members. One of our goals is that every day our children feel safe and loved when they attend our centers or receive home visits. We strive to make our parents feel supported and empowered and our employees appreciated and valued.

Early Head Start plays a very important role in our San Joaquin County community. We participate in several local committees to represent the needs of Early Head Start families. We also collaborate with the community to enhance the professional development of infant and toddler staff.

We are committed to continuously building positive relationships that result in a high-quality program for infants and toddlers in San Joaquin County.

-Gloria M. Barbero, Program Administrator
San Joaquin Early Head Start

This report, its charts, tables, general layout, and design were prepared by Chase Rangel, Data Analyst for the Head Start and State Child Development Division. Its narrative content and report data are the sum of all the hard work put forth by our dedicated staff, support divisions, and community partners in the 2018-2019 Program Year.

If you have any questions concerning the content provided in this report, contact Chase Rangel at crangel@capk.org. A electronic copy of this report is available on our agency’s website, www.capk.org

The Promise of Community Action: Community Action changes people’s lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other.

Since 1965, Community Action Partnership of Kern (CAPK) has provided an integrated network of services as the official anti-poverty agency in Kern County. One of more than 1,000 Community Action Agencies nationwide, CAPK is one of the largest 501(c)(3) organizations in Kern County, but its service footprint extends throughout central California, including Kings, Tulare, Fresno, Merced, Madera, Mariposa, San Bernardino and San Joaquin Counties. The agency’s mission is to provide and advocate for resources that will empower the communities we serve to become self-sufficient. To achieve its mission, CAPK offers a variety of services, resources, and opportunities to help residents pursue their educational goals, secure and retain employment, maintain adequate housing, reduce food insecurity, access medical services, and more. In addition, CAPK is strongly committed to providing quality child care and preschool education.

Jeremy Tobias, CAPK’s Chief Executive Officer, leads the agency and reports to an all-volunteer, 15-member tripartite board of directors who represent the public, private, and low-income sectors of Kern County. The board provides general oversight for all of CAPK’s programs, including Head Start and Early Head Start. Included on the CAPK board is an Early Childhood Development professional, expressly qualified to provide oversight in CAPK’s early education programs. A member of the Head Start Policy Council, an additional governing body exclusive to the Head Start and Early Head Start programs, is seated on the CAPK Board of Directors. Additionally, a CAPK board member is seated on the Head Start Policy Council. This system of shared governance ensures ongoing, seamless communication and oversight between the two bodies for the efficient implementation of Head Start policy.

Reporting to CAPK’s Chief Executive Officer are seven division directors who are responsible for all of the agency’s programs and services, including Head Start & State Child Development. With the guidance and support of the board of directors as well as staff efforts and commitment, CAPK remains focused on fulfilling its mission and the Promise of Community Action.

school readiness

WHAT IS SCHOOL READINESS?
The Head Start Approach to School Readiness means that families are ready to support their children’s learning, children are ready for school, and schools are ready for children. Historically, Head Start often has led the early childhood development field with a clear and comprehensive focus on all aspects of healthy development, including physical, cognitive, social and emotional development, all of which are essential to prepare for school. We achieve this by observing research-based strategies, curricula and philosophies.

SUPPORTING SCHOOL READINESS FOR ALL CHILDREN
Our program observes the House Framework for effective everyday practices. The house illustrates four integral elements of quality teaching and learning. In this framework, these elements correspond, respectively, to parts of a house - the foundation, two pillars, and a roof - and when connected with one another, they form a single structure surrounding the family in the center, fostering children’s learning and development.

DUAL LANGUAGE LEARNERS
CAPK celebrates the linguistic, ethnic, and cultural diversity that exists among all of our families. This is done in the spirit of ensuring the best early care and school readiness experience possible. Our teachers and team members are well-trained to meet the needs of dual language learners.

All developmental assessments are performed in a culturally and linguistically inclusive manner, whereby children are assessed in their preferred language. The majority of our funded enrollment comprises of English Language Learners, therefore, CAPK makes a strong effort to hire bilingual team members, supporting both children and families with the preservation of the home language, while also helping families develop in their use of English.

POSITIVE BEHAVIOR SUPPORT
Relationships in and out of the classroom shape the way children learn, interpret, and connect with others. A child’s first years of school are filled with many wondrous moments and it’s a time of tremendous physical, and intellectual development. Young children are developing self-regulation, the ability to calm or regulate themselves when they are upset, and this process can lead to some challenging moments for both adults and children.

The Pyramid Model’s Positive Behavior Support framework offers proven strategies that support the learning and engagement of all children, giving teachers and parents strategies for promoting young children’s healthy social and emotional development.

The Pyramid Model builds upon a tiered public health approach to providing universal supports to all children to promote wellness, targeted services to those who need more support, and intensive services to those who need them.

Transitions to a new care or learning setting impact the entire family. For both children and families, transitions between settings can lead to great excitement and joy. Children can look forward to new possibilities, new friends, and experiences.

Transitions can also bring on uncertainty. Children may experience loss of familiar people and predictable routines. Families may have mixed reactions to their child getting older, and may wonder if they are ready for the next stage.

As early childhood education professionals, we offer support and guidance to help families feel secure and ready to make the move to a new environment.

EARLY HEAD START

Early Head Start transition activities are designed to create the supportive climate needed for toddlers advancing into a preschool setting. These activities ensure a cohesive relationship that is secure and consistent as the family moves into a Head Start or similar preschool program.

Teachers, parents, and resource staff come together when a child turns two years old in order to plan the child’s transition into the most appropriate preschool setting. At this phase, the teacher and parent will review all child assessment outcomes, artwork, and writing samples to illustrate the child’s readiness for their new journey. Our teachers provide information to families for alternate preschool options if they are unable to continue attending a Head Start program.

The Exit Plan begins when the child reaches 30 months. If a preschool option is available at their current site, children will make a minimum of three visits to their new preschool classroom, for up to 30 minutes per visit, to familiarize them with their new environment.

CAPK has a memorandum of understanding with local agency, Head Start San Joaquin, to continue the Head Start experience from 36 months, until they enter kindergarten.

Quality transitions are important at any stage in a child’s development. We arrange transition interviews and classroom visits any time a child enters a new program, or even simply a new classroom or center within our program.

In addition to infants and toddlers, we support expectant parents as they transition from the Pregnant Women Program to our center, or home-based options. Our staff and parents develop a plan based on the parents’ needs for future placement of their newborn in an early education program.
Parent and family engagement (PFE) activities are grounded in positive, goal-oriented relationships with families. When PFE activities are integrated across program foundations, family engagement outcomes are achieved, resulting in children who are healthy and ready for school. In support of the Parent, Family, and Community Engagement Framework, parents, Family Service Workers, or Home-based Educators, collaborate to create Family Plans at the start of the school year. These plans are later revisited at the conclusion of the year to evaluate each family’s progress.

Parents are the primary educators of their children, and research shows engagement activities at home are paramount to their child’s success. To that end, CAPK adopted ReadyRosie, a research-based tool which provides families with customized parenting videos and activities to reinforce learning initiatives from the classroom, while away from the classroom.

ReadyRosie is a parenting curriculum that builds on parents’ knowledge, harnessing the power of video and mobile technology to empower families and schools to work together to promote school readiness goals.

2
Two workshops were provided to parents and families to introduce and train them on the use of the Ready Rosie mobile app.

120
120 new parents and families were registered to use the Ready Rosie mobile service.

PARENT ACTIVITIES
- Monthly Parent Policy Council and Sub-Committee Meetings (Planning, School Readiness, Finance and By-Laws);
- Quarterly Regional Parent Committee Meetings;
- Health Advisory and Committee Meetings;
- Center Family Engagement and School Readiness Parent Activities;
- Parent Orientation;
- Monthly VIP Parent Meetings;
- Workshops such as Families as Partners, You Can Make A Difference, and Relationship Matters;
- Quarterly School Readiness meetings;
- Quarterly UCLA Health Care Initiative Workshops.

did you know?

569
Our program is funded to serve 313 Early Head Start children and expectant mothers each day. Cumulatively, we served 296 infants, 222 toddlers, and 51 expectant mothers.

100%
Monthly enrollment, as a percentage of our funded enrollment, was 100% during the 2018-2019 school year. This includes our Early Head Start, Home Base, and Pregnant Woman program options.

92%
92% of those we served were income eligible, or categorically eligible for the program. This includes families on Public Assistance, families experiencing homelessness, and foster children.

67%
67% of all children received medical exams. These children were up-to-date on a schedule of age-appropriate preventive and primary health care, according to the state’s EPSDT schedule.
From May 14 to 18, 2018, the Administration for Children and Families conducted a Focus Area Two Monitoring Review of the Community Action Partnership of Kern Early Head Start Program in San Joaquin County. Based on the information gathered during this review, our program was found to have met the requirements of all applicable Head Start Program Performance Standards, consisting of Program Management, Governance, Financial Management and Enrollment practices. The review team was pleased with our service delivery, which includes Education and Development Program Services, Health Services, and Family and Community Engagement Program Services.

An independent, external audit for fiscal year ending January 31, 2019, found no deficiencies in our financial oversight, expenditures, or program operations.
