

Welcome to Community Action Month

Dear Fellow CAPK supporter,

This month Community Action Partnership of Kern (CAPK) will take a moment to reflect and celebrate the small, quiet victories we won as we labored to support communities shaken by pandemic, shuttered businesses, lost jobs and illness.

We will remember former Food Bank volunteers who were forced to take a turn in our food distribution lines to make ends meet. We will honor the woman who walked out of our Energy Assistance office with tears of relief in her eyes – leaving months of utility bills she couldn't pay behind. We will recall the faces of former M Street Navigation Center homeless residents as they got the keys to their new homes and started new lives.

During this past year, CAPK's 15 programs and more than 900 employees served over 105,000 families. Thousands of stories got better because we're there to help. We won small victories that meant the world to people in crisis. That is what we are celebrating this month.

There is more work ahead. It's hard work. It's good work.

We at CAPK are honored to be a part of it.

Keep an eye out for stories from CAPK this month as we talk with our communities about the positive impact we can all have if we take action together.
