

---

**May is Community Action Month.**  
**Celebrate what CAPK is all about!**

---

At its core Community Action is about serving those in our community who need a bridge to a new day. Community Action Partnership of Kern's team of more than 900 employees, working in offices that stretch from Needles, through Kern County to Lodi, is committed to being there to help people like Kathy.

**"It makes a big difference when you know there's someplace to go for help."**

Community Action is the perfect description of what CAPK and our network of more than 1,000 fellow Community Action Agencies do every day. We take Action to address the causes and symptoms of poverty in search of a sustainable future for everyone. But pursuing that goal is an act of Community. One person can't build the neighborhoods and cities we envision for ourselves and our neighbors. But, when we work together, those goals are within our grasp. This month we show commitment to our collective goal by saying, "I am CAPK."

---

Partnerships are another huge part of what CAPK does in neighborhoods and cities across Kern County. We're excited to celebrate the launch of a great partnership with the Kern County Library this May. Story Tours will bring library books, story time events and giveaways to under-served communities who are currently without library services. We are grateful for funding from the Virginia and Alfred Harrell Foundation and to the Kern County Library's team for making this happen for kids and families across the county.
