MEMORANDUM

To: Personnel Committee

From: Susana Magana, Director of Health & Nutrition

Date: March 6, 2024

Subject: *Agenda Item 4(a): Women, Infants & Children (WIC) Program Restructure – Action Item*

Over the past few months, WIC leadership has been diligently reviewing processes and operations to identify areas for improvement. Through this evaluation, it has become evident that restructuring the department is necessary to optimize our performance and ensure compliance with contractual obligations. This restructuring involves consolidating job descriptions to streamline operations and better align with our organizational goals.

By consolidating job descriptions, we aim to simplify roles, clarify responsibilities, and eliminate redundancies. This will allow us to operate more efficiently, to effectively utilize our resources, to fulfill our contractual obligations. The restructuring will ensure that our department is equipped to fulfill these requirements promptly and effectively by adhering to contractual requirements.

Lastly, we recognize the importance of fair and equitable compensation for all staff members. As part of the restructuring, the leadership team conducted a comprehensive review of salary structures to ensure pay equity across all roles. Ultimately, the goal of this restructuring is to enhance our ability to meet the evolving needs of our clients. By optimizing our operations, we can deliver higher-quality services in a timely manner.

Our leadership team will provide ongoing communication, resources, and assistance to help navigate these changes effectively.

Summary of Proposed Changes

There were three (3) positions that yielded a grade reduction. The Regional Breastfeeding Specialist and the Local Vendor Specialist included supervisory requirements that were not exercised. After reviewing the needs of the WIC program, the determination was made to permanently remove the Regional Breastfeeding Assistant position and the Local Vendor Specialist referenced in the prior job descriptions. The two assistant positions had never been filled. The third position that was reduced in grade was the Nutrition Education Coordinator. This position was changed from a supervisor to a coordinator to standardize the titles established by the scope of work at the WIC Program. This position is currently vacant and the old grade 11 falls in line with a grade 10 in the new compensation schedule approved by the Board

back in November 2023. Below is a description of the proposed position changes and fiscal sustainability:

Fiscal Impact and Timeframe

Staff worked with Finance and the proposed grade increases are supported by the current contract budget. The grade changes allow our program to come up to market

level and be competitive in our recruitment efforts to fill current vacant positions, as well as improve retention for this current 2023/2024 fiscal year. Program staff will continue to analyze the program for efficiency and further restructure the organizational chart in the upcoming 2024/2025 fiscal year. The revised and new job descriptions have undergone review and approval by Human Resources.

Staff have been in communication with State WIC regarding the CompEase process. The timeframe for implementation would be pending approval from State WIC, but at the earliest it would be implemented starting with pay period April 1, 2024 paid on April 19, 2024.

Strategic Plan Impact

As part of the 2021-25 Strategic Plan, specifically under Goal 4: *CAPK seeks to be an employer of choice and attract and retain a high-quality workforce to achieve the organization's desired results*, and as part of following objectives, the proposal supports staff development, growth, and retention:

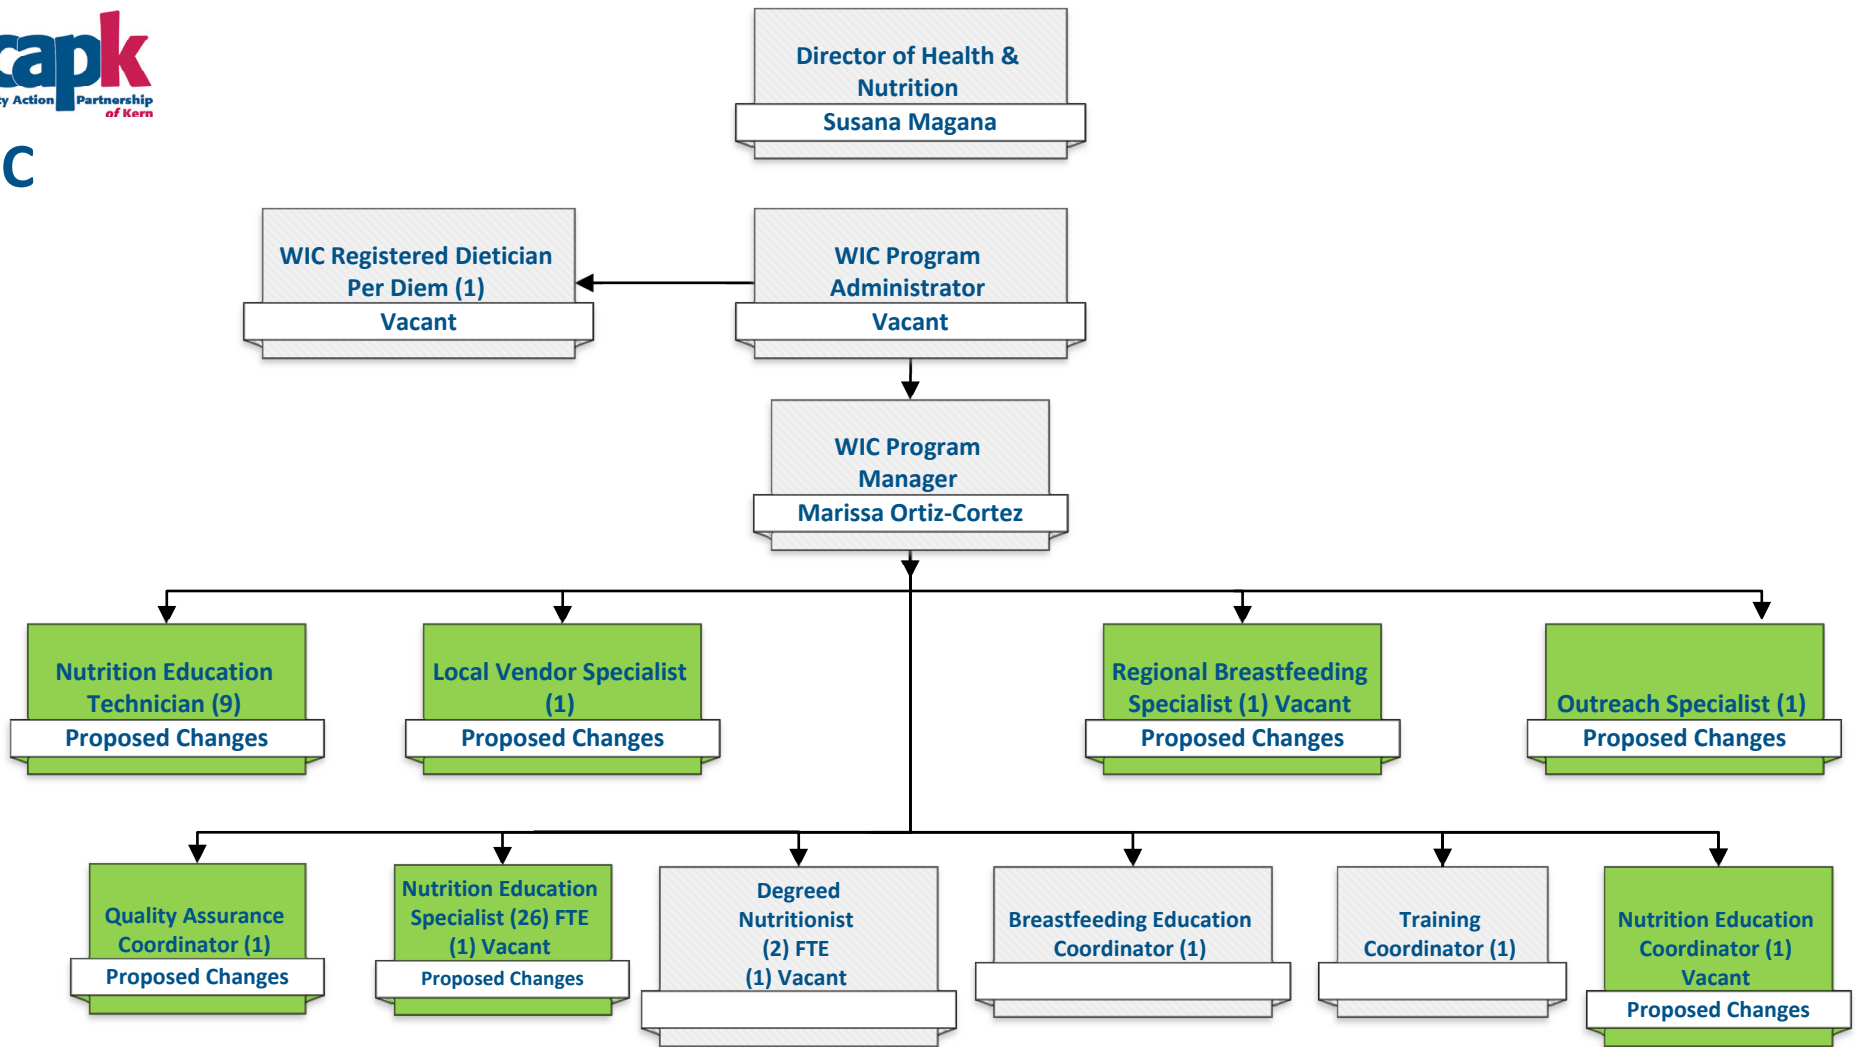

- Objective 4.2: Increase employee engagement, morale, and retention.
 - 4.2.1 Conduct an internal and external equity analysis to evaluate the labor market and fiscal impacts; (b) b) Complete development and consolidation of revised job descriptions.

Recommendation:

Staff recommends the Personnel Committee approve the WIC Program restructuring and reclassification of job descriptions described therein.

DRAFT

MEMORANDUM

To: Personnel Committee

From: Lisa McGranahan, Director of Human Resources

Date:  March 6, 2024

Subject: *Agenda Item 4(b)*: Updates to Bilingual Pay Policy – **Action Item**

As part of our ongoing commitment to attracting and retaining a high-quality workforce, we are bringing forth enhanced updates to the Bilingual Pay Policy. These changes, reviewed and recommended by the leadership, aim to provide clarity and fairness in the distribution of stipends for bilingual positions.

Policy Changes

To provide clearer guidance on eligibility and positions, the criteria for positions eligible for bilingual stipends have been refined to ensure alignment with department needs and responsibilities. The policy was modified to reflect that employees seeking to receive a bilingual stipend must meet the criteria outlined for their respective positions and obtain the appropriate levels of certification.

These changes reflect our commitment to recognizing and rewarding the valuable contribution of bilingual employees. We believe that by refining the criteria and eligibility requirements, we can ensure that the distribution of stipends is fair, transparent, and aligned with organizational objectives.

Strategic Plan Impact

As part of the 2021-25 Strategic Plan, specifically under Goal 4: *CAPK seeks to be an employer of choice and attract and retain a high-quality workforce to achieve the organization's desired results*, and as part of following objectives, the proposal supports staff development, growth, and retention:

- Objective 4.2: Increase employee engagement, morale, and retention.
 - 4.2.1 Conduct an internal and external equity analysis to evaluate the labor market and fiscal impacts; (b) b) Complete development and consolidation of revised job descriptions.

Recommendation:

Staff recommends the Personnel Committee approve the updated Bilingual Pay Policy described therein.

Bilingual Pay Policy

POLICY AND PROCEDURE

TITLE: Bilingual Pay
APPROVED: October 26, 2022
APPLIES TO: Community Action Partnership of Kern Employees

PURPOSE:

The purpose for the Bilingual Pay Policy is to recognize a diverse skillset that adds value to the organization and helps attract and retain employees. Upon approval by the CAPK Board of Directors, this Policy will be permanently established for pre-selected agency roles.

OBJECTIVE:

The primary goal of the Bilingual Pay Policy is to provide additional compensation for employees who demonstrate position-required language competencies that will improve how the agency delivers services to our targeted communities. Secondary goals for the Bilingual Pay Policy would be to attract more candidates for agency positions, reduce employee turnover rates, and lengthen bilingual employee's service time with CAPK. The Bilingual Pay Policy applies to all employees including full-time, part-time, temporary, and emergency hires that are retained by the organization.

POSITION CRITERIA:

The position must be in a CAPK work setting with a demonstrated flow/intake of clients, phone calls, or correspondence where bilingual skills are regularly needed to meet the language needs of clients. The two types of bilingual positions are defined below:

- **Level 1 (\$50 bi-weekly) Verbal Proficiency – Bilingual Stipend Positions:** Some positions may not require bilingual skills, but the agency recognizes that bilingual skills add value (i.e., taking frequent calls in a second language, providing frequent translation services, or regularly using bilingual skills for other work-related duties).
- **Level 2 (\$3.00/hour) Reading, Writing, and Verbal Proficiency – Bilingual Stipend Positions:** Some positions wherein the majority of client interactions are conducted in another language and wherein bilingual skills are a requirement as stated in the job description.

For bilingual positions, employees in those defined roles must demonstrate proficiency by passing the certified bilingual examination. For positions wherein bilingual skills may add value but are not required, employees may voluntarily test to receive the Level 1 stipend.

ELIGIBILITY PROCEDURES:

Employees who frequently utilize bilingual skills in their job are eligible to receive bilingual pay subject to the following provisions. To be eligible, employees must pass a certified test demonstrating their bilingual conversational fluency. Scoring for the proficiency test will be pass/fail, and that score will remain in place while the employee remains in a position requiring bilingual proficiency. When first requesting bilingual pay, an employee's certificate must be dated within five

(5) years of stipend request date.

Bilingual pay will cease when an employee is transferred, promoted, demoted, or otherwise moved into a position that is not designated as bilingual or eligible for a bilingual stipend. **Additionally, the stipend may end in the case that any program and/or department/division no longer has funding to sustain the stipend, and thus is not guaranteed.**

BILINGUAL PAY:

1. Employees who qualify for a bilingual stipend (Level 1) will receive \$50 bi-weekly for their certificated skills.
2. Employees in bilingual positions (Level 2) will receive an additional \$3/hour as premium pay.
3. Compensation will be effective during the payroll period following certification entry into the employee record.
4. Bilingual pay will be processed through Payroll and will be considered taxable wages.
5. Retroactive pay for bilingual skills will not be authorized unless at the agency's error.
6. Bilingual pay will be expensed to the program(s) or project(s) that receive the benefit of the employee's bilingual skills.

PROGRAM GUIDELINES:

For the purpose of this policy, English is considered to be the primary language, and any other language used under this program will be considered as a secondary language.

The Director of Human Resources shall designate qualifying languages and authorize the full number of positions to receive bilingual pay based on the needs of the agency. For newly developed positions in the organization, the determination of whether the job description should indicate bilingual skills are required or preferred will be made in partnership with Program Directors or Chiefs and the Director of Human Resources, and all such positions must be approved by the Personnel Committee. Directors and Chiefs alone retain the authority to determine if a position should no longer be designated as a bilingual position or offer a bilingual stipend.

During the time of any leave of absence without pay, employees will not be eligible for bilingual pay.

The Bilingual Pay Policy can be suspended or canceled at any time as determined by the Chief Executive Officer, at their discretion. Any modification of this policy will require prior approval by the CAPK Board of Directors.

EXAMINATIONS:

Candidates for bilingual designated positions may select Bakersfield College, or any certificated location to conduct the test.

Subject: *Agenda Item 4(c)*: Update to Employee Handbook Section 8.3: Non-Exempt Employee Time Records (Minute-to-Minute) – **Action Item**

Summary

As part of our ongoing commitment to valuing our employees, we are bringing forth enhanced updates to Section 8.3: Non-Exempt Employee Time Records with Minute-to-Minute timekeeping. These changes, reviewed and recommended by both leadership and KDG legal counsel, aim to enhance precision and accountability in tracking employees' work hours, which will facilitate more accurate payroll management.

According to the State of California's Labor Code, every minute an employee works must be compensated. Rounding is permitted if it has a de minimus effect and favors the employee. However, due to the 2023 case *Camp v. Home Depot* (pending CA Supreme Court review), companies that have precise timekeeping methods should capture exact time.

Policy Changes

Effective April 1, 2024, we will be implementing minute-to-minute timekeeping for all non-exempt employees. This decision has been made to ensure greater accuracy and accountability in recording work hours. By tracking time in this manner, we aim to streamline our payroll processes and pay employees for every minute worked.

Minute-to-minute timekeeping will provide a more precise record of the time spent on work tasks and projects. Employees will be accountable for accurately logging their work hours, ensuring transparency and fairness. This initiative promotes a culture of punctuality and time management within our organization, emphasizing the importance of adhering to scheduled work hours while simultaneously allowing flexibility for those employees who need it and who work in an environment that allows schedule adjustments.

To facilitate this transition, training sessions will be provided to familiarize supervisors, managers, and those impacted with the new timekeeping system.

Recommendation:

Staff recommends the Personnel Committee approve the updated Section 8.3 Policy described therein.

Section 8.3 Policy

8.3 Non-Exempt Employee Time Records

An employee's time record is their bill to CAPK for services rendered and is a legal document. All employees are expected to use CAPK's electronic timekeeping system. To be sure work time is paid in full, timestamp "In" at the beginning of the day, timestamp "Out" and "In" for lunch, and "Out" again at the completion of the day. Do not timestamp "In" or "Out" for the ten-minute rest periods since these breaks are on CAPK paid time. **All time worked must be accurately reported on your time record accurately and to the minute.** Failure to use the electronic timekeeping system will result in employee discipline.

Time worked is all the time that an employee is required to be performing duties for the company, which includes, but is not limited to, time spent performing your work duties, pre and post-shift work, preparatory paperwork, clean-up, set-up, donning and doffing, mandatory travel, or any other tasks performed in furtherance of work for CAPK. The following provisions are also included as time worked:

- **Work away from premises or at home.** If approved, work performed off the premises or job site or at home by a non-exempt employee will be counted as time worked. A non-exempt employee will not be permitted to perform work away from the premises, job site, or at home unless approved in advance in writing by the Director of Human Resources.
- **Break time.** Rest breaks of ten (10) minutes are counted as time worked, even employees are relieved of all duty during rest breaks. Non-exempt employees do not clock out for rest breaks.

Each employee is responsible for recording all overtime worked, and reporting all missed breaks. It is the employee's responsibility to clock in and clock out for every shift worked (and all meal periods and other unpaid absences) **accurately and to the minute.** Employees may not begin work before they have clocked in. Non-exempt employees working "off the clock" for any reason is prohibited, and a serious violation of CAPK policy.

No one has the authority to require, allow or ask, directly or indirectly, any non-exempt employee to perform any work for CAPK "off the clock". If an employee forgets to clock in or out, or if an employee believes the timestamps are not accurate, they must notify their supervisor immediately, so the time can be accurately recorded for payroll purposes. Remember to record all time worked, even if it is during what should have been non-work time.

The beginning and end of each meal period or any other unpaid break is recorded by electronic timestamp. All arrivals and departures must be recorded by electronic timestamp as they occur **to the minute.** ~~Time worked is rounded to the nearest 15 minutes time in order for calculating hours worked.~~

Under no circumstances may an employee record another person's time or alter another employee's timestamp. Each employee is only permitted to record his or her own time. Any errors on an employee's timecard should be reported immediately to the supervisor.

Timecards must be reviewed and approved electronically by the employee at the completion of each pay period. An employee's approval verifies that the employee personally recorded all of the time shown and that the hours reported are complete and accurate. The approved timecard will be submitted to the supervisor for review and approved by the payroll deadline.

Minute to Minute Pay

PRESENTED BY,

LISA MCGRANAHAN, DIRECTOR OF HUMAN
RESOURCES

TRACY WEBSTER, CHIEF FINANCIAL OFFICER

Round is a great shape for balls, oranges, watches and even tires. “Round” should not be anything associated with employee wages. Employees should be paid for every minute they work.

Pay for Every Minute Worked

According to the State of California's Labor Code, every single minute an employee works must be compensated. Rounding is permitted if it has a de minimus effect. However, due to the 2023 case *Camp v. Home Depot*, companies that have precise timekeeping methods should capture exact time. (Case is pending CA Supreme Court review.)

Benefit to the Employee

- Rounding to the nearest quarter hour typically has a neutral effect on the employee. There are instances where time is rounded up and when it is rounded down.
 - For example, if a shift is 6 hours and 3 minutes, it is rounded down to 6 hours. However, a shift that is 6 hours and 8 minutes is rounded to 6.25 hours.
- When an employer has the ability to record actual time, the employee should be paid for every minute worked.
- CAPK values all staff. Plus, CAPK desires to follow the best legal guidance and pay employees for every minute they work.

California 30-Minute Minimum Lunch Requirement

Additionally....

- California specifically prohibits applying rounding to the 30-minute minimum lunch requirement, both in length of time of the break and the start time.
- CAPK's state of the art timekeeping system cannot ensure 100% compliance with this requirement while concurrently applying a rounding policy for the start and end of the workday.
- Currently, the review of the required 30-minute lunch periods are being manually reviewed. The application of minute-to-minute pay will allow the agency to improve the recording of time for employees and streamline the payroll process.

Does this Change Result in Increased Discipline?

Answer: Absolutely No!

- Intent of the change is to be compliant with changing guidance from agencies such as the California Employers Association.
- CAPK has the ability to pay employees for every minute they work with current technology in place. Therefore, CAPK employees should no longer have “rounding” applied to pay calculations.
- CAPK historically rounds in the favor of the employee.
- There is no intent for this policy to trigger attendance points or disciplinary action. However, employees who intentionally punch in early to accumulate overtime will be coached against this practice.

Other Questions

More Questions

- What if the timeclock does not capture my time or doesn't work?
 - Contact your supervisor to coordinate timecard edits by email.
- If I am short minutes, how do make my time whole?
 - You will not be required to request minutes of time. However, you may request vacation time through ADP.

MEMORANDUM

To: Personnel Committee

From: Jerry Meade, Assistant Director of Head Start, Program
Robert Espinosa, Program Design and Management Administrator

Date: March 6, 2024

Subject: *Agenda Item 4(d)*: Head Start Personnel Update – **Info Item**

The Head Start and State Child Development Division remains dedicated to providing regular updates on personnel challenges impacting the Head Start program.

For the month of February 2024, the following information is presented to the Personnel Committee:

- 604 staff currently employed.
- 97 vacant positions.
- Onboarding of 11 new staff members.
- Three (3) resignations.
- Conducted nine (9) days of interviews for eight (8) open requisitions.

Job postings continue to be listed on the Head Start California website, and ongoing recruitment endeavors persist for our direct service roles. We are actively promoting recruitment incentives to attract qualified personnel. Additionally, efforts to retain staff include the promotion of retention incentives, addressed during New Hire Orientation and through our mentorship program, to ensure awareness of incentive requirements and encourage continued employment with the organization.

Grand Canyon University is extending a special opportunity to CAPK staff with a 35% reduction in tuition fees for those pursuing a bachelor's degree in education along with a credential, specifically for the March cohort. Concurrently, a digital flyer is prominently displayed at the F. St. DMV facility, spotlighting employment prospects within the Head Start program.

Attached is a document outlining closed classrooms and staff vacancies for both closed and open classrooms as of February 28, 2024.
