MEMORANDUM

To: Personnel Committee

Tracy Webster

From: Tracy Webster, Chief Financial Officer

Date: February 4, 2026

Subject: *Agenda Item 4a: Proposed Staffing Changes in the Finance Department - Action Item*

The Finance Department has implemented many system changes in the last year. These changes include the implementation of Sage Intacct, Martus, Re-Leased, PayStand, Sage Expense Management, and electronic approvals. With the implementation of a revised de minimus indirect rate, the Finance team is looking to streamline departmental resources with current organizational needs to foster efficient operations.

Summary of System Changes

The Finance Department has recently implemented several key system upgrades to improve financial management and reporting capabilities:

- Platform Implementation: Deployment of new financial software platforms to streamline accounting processes, enhance data accuracy, and facilitate real-time reporting.
- Revised De Minimus Indirect Rate: Adoption of an updated de minimus indirect cost rate, reflecting current federal guidelines and best practices, to ensure consistent and compliant allocation of indirect costs.
- In the upcoming year, the Finance team will be working to improve the data integration from Finance and program. The Finance team will also provide ongoing monthly training to leverage tools such as dashboards and strengthen the fiscal knowledge of front line staff.

Title Change and Realignment

To streamline tasks, we are proposing that the Accounting Administrator-Energy be changed to Accounting Administrator. This change has no change in grade and will reflect the level of responsibility of the position.

This position will be moved to 18th Street. The individual will continue to complete Energy accounting as well as supervising the accounting functions across a range of programs and agencywide accounting tasks.

This Accounting Administrator will no longer supervise the Energy billing staff. The oversight of these roles will be transferred to the Energy Administrator.

Position Additions and Eliminations

- Add Accountant I: The addition of an Accountant I position is recommended to address increased workload resulting from system changes and expanded energy program activities. This entry-level role will support routine accounting operations, improve workflow, and provide a talent pipeline for future departmental needs.
- Eliminate Vacant Contracts Specialist (Procurement): It is recommended that the currently vacant Contracts Specialist (Procurement) position be eliminated. This change reflects a shift in procurement responsibilities to other team members and supports a more efficient organizational structure.

Fiscal Impact

The proposed staffing changes are designed to be budget neutral. The costs associated with adding the Accountant I position will be offset by eliminating the vacant Contracts Specialist (Procurement) position. No net increase in departmental expenditure is anticipated.

Alignment with Strategic Plan Priorities

- Strategic Priority C: These actions support our commitment to being an employer of choice by fostering a learning-focused work culture that drives continuous growth and professional development across the Finance department.
- Strategic Priority D: The proposed staffing changes also directly advance our goal to increase the use of data-driven decision-making processes, thereby strengthening organizational capacity and supporting informed, evidence-based management practices.

Recommendation

Staff recommends the Personnel Committee approve the following actions:

1. Title change and realignment of the Accounting Administrator-Energy position to Accounting Administrator with revised responsibilities and supervisor structure.
2. Authorize the addition of an Accountant I position to support expanded accounting operations.
3. Approve the elimination of the vacant Contracts Specialist (Procurement) position.

These actions will allow the Finance Department to better meet current demands while supporting long-term organizational goals.

MEMORANDUM

To: Personnel Committee
Jerry Meade
From: Jerry Meade, Assistant Director Program
Date: February 4, 2026
Subject: *Agenda Item 4b: Head Start & State Child Development Organization Chart Revision – Action Item*

The Head Start and State Child Development Division (HSSCD) is requesting approval from the Personnel Committee for proposed revisions to the organizational structure for the division. The HSSCD organizational structure attached includes title changes that align to approved job descriptions to report to a new supervisor. The purpose of these approved changes aligns San Joaquin Staff to report to direct supervisors in San Joaquin County in lieu of supervisors in Kern. Revisions are highlighted in the attached documents for quick reference.

Summary of Proposed Changes

The positions in the proposed organizational structure include Support Services, Education and Enrollment & Attendance team members in San Joaquin that currently report to supervisors in Kern to be assigned to supervisors in San Joaquin. The title change from Education Manager to Support Services Manager is included to incorporate all service areas under one manager in SJC. Through ongoing collaboration, the existing teams will maintain consistency in systems and process through our departmental procedures, but the direct supervision will move to a local model in both counties.

Fiscal Impact and Timeframe

These revisions are budgeted in the Head Start FY 2025-26 and FY 2026-27 budgets. The program staff have developed a transition plan for these revisions. All departments are targeted to be fully implemented upon approval from the Board. Allocation changes will also support San Joaquin County Office of Education funding to support fewer positions located in Kern County.

Strategic Plan Impact

As part of CAPK's Strategic Plan, Strategic Priority C ~ Agency Culture: CAPK seeks to be an employer of choice by fostering a learning-focused work culture that drives continuous growth, while attracting and retaining a high-quality engaged workforce. This proposal supports staff development, growth, and retention by aligning the job description with the pressing needs of the Head Start program.

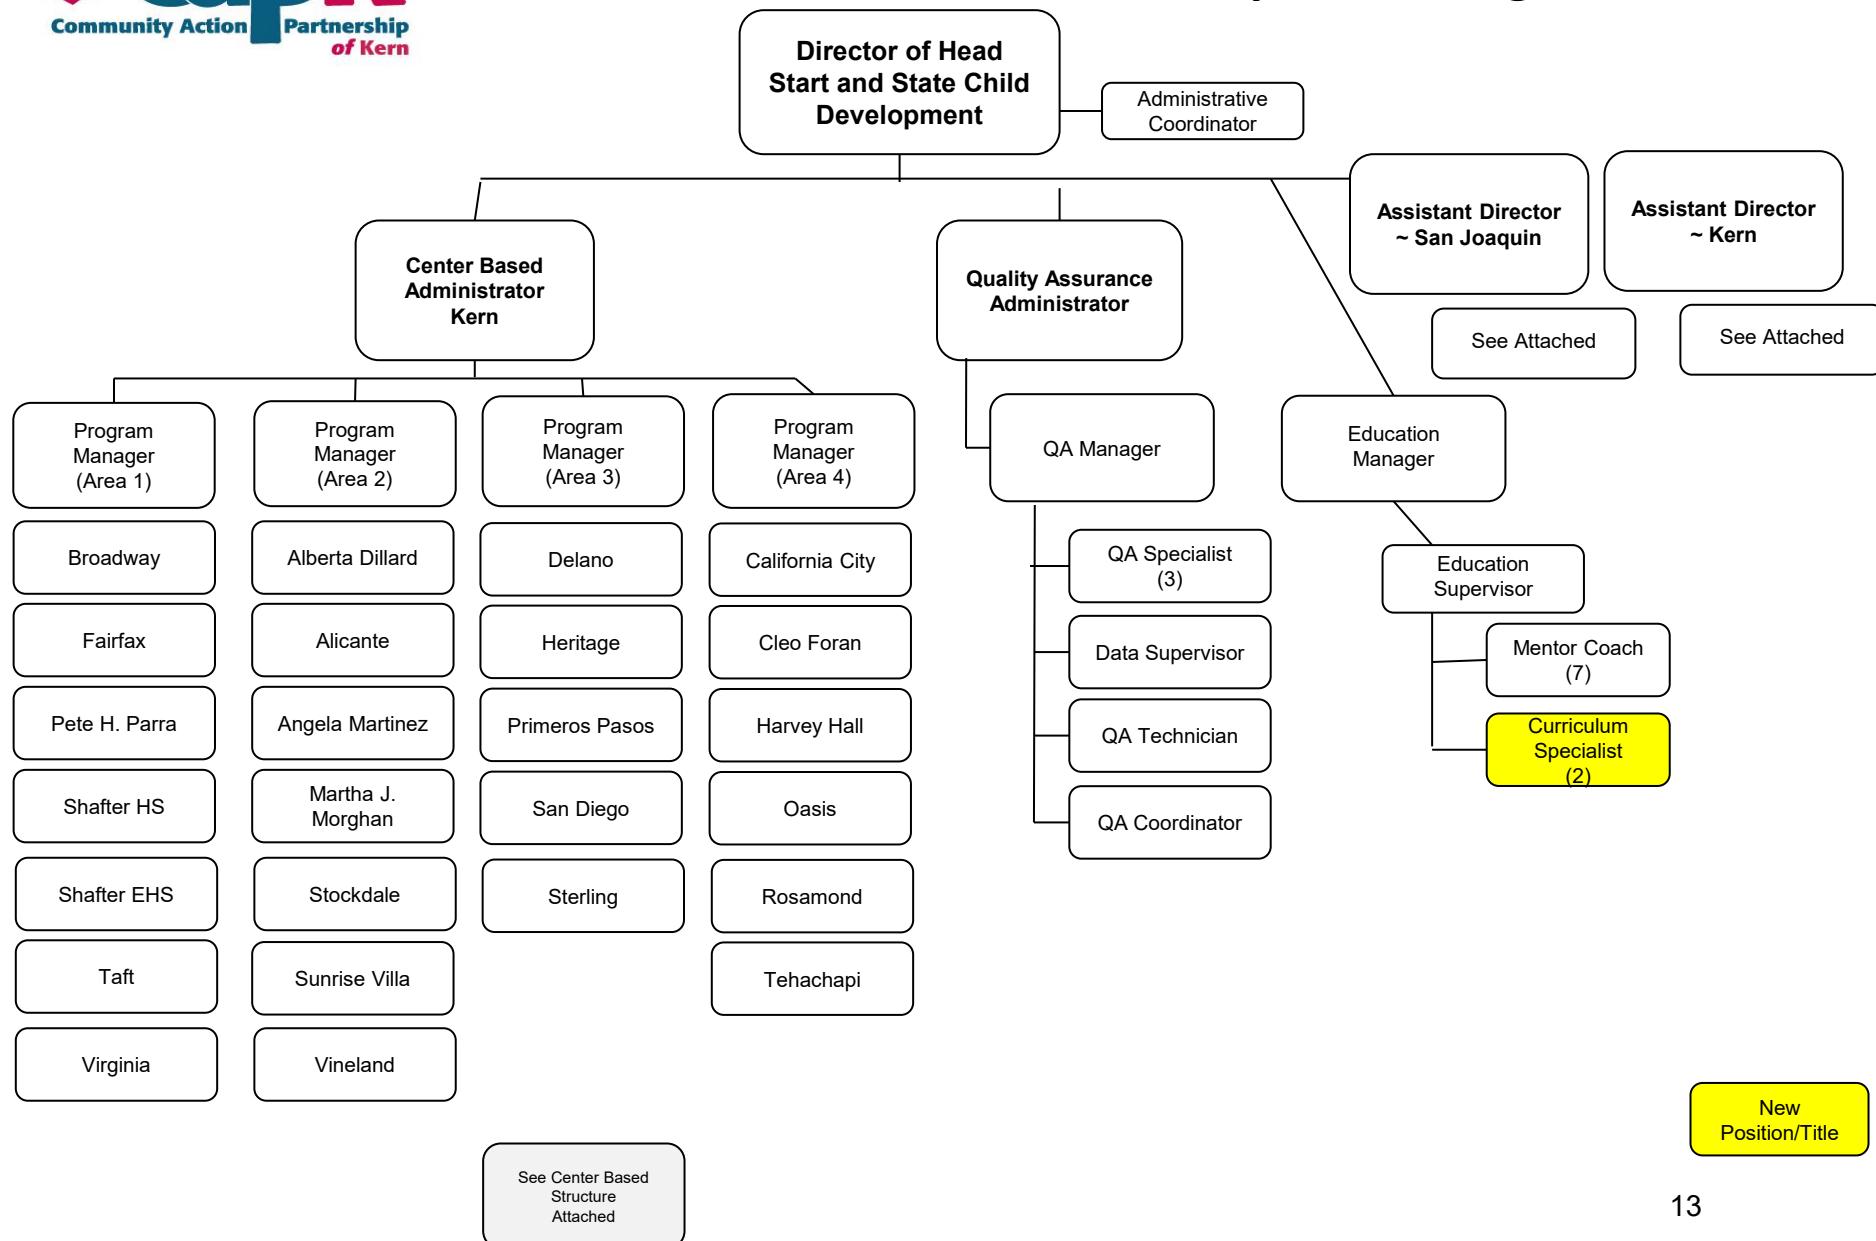

Recommendation

Staff recommends the Personnel Committee approve the revised Head Start and State Child Development Organizational Structure as presented.

MEMORANDUM

To: Personnel Committee

A handwritten signature in blue ink that appears to read "Lisa McGranahan".

From: Lisa McGranahan, Chief Human Resource Officer

Date: February 4, 2026

Subject: *Agenda Item 4d: Human Resources Analytical Information CY 2025 – Info Item*

Below is a chart showing CAPK's year-over-year turnover rates for years 2022-2025

Year	Involuntary Rate	Voluntary Rate	Total Turnover Rate
2022	3.23%	20.59%	24.04%
2023	3.22%	21.34%	24.88%
2024	4.00%	12.99%	16.99%
2025	5.78%	13.42%	19.20%

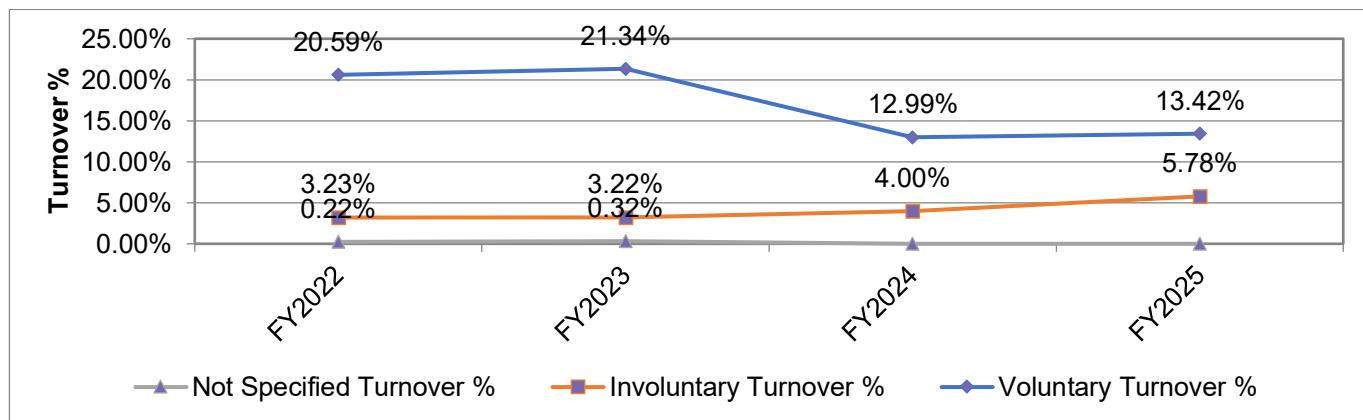

A key focus of our recent efforts has been conducting a comprehensive pay equity analysis across all CAPK departments to ensure all employees receive fair and competitive compensation. This initiative reflects our dedication to promoting fairness and addressing any potential pay disparities. This was accomplished by using our Compose tool; the purchase of which was approved by this committee and the Board alike.

In addition, we have redesigned our medical plan offerings to provide more robust coverage, competitive pricing, and better support for the diverse healthcare needs of our employees. These improvements include expanded options and benefits, ensuring our employees have access to the care they need to maintain their health and well-being.

Together, these initiatives reflect our ongoing commitment to both employee retention and recruitment. By offering enhanced benefits and equitable pay, we continue to attract top talent while creating an environment where our workforce can thrive. We believe these efforts have helped us build a stronger, more engaged team, working together toward our shared success. In summary, it is apparent that these efforts have been successful and have had the intended positive impact on our agency's turnover rate.

For purposes of this targeted discussion regarding turnover, the voluntary rate for the agency in calendar year 2024 was 12.99%. However, in comparison, the agency saw a small increase in turnover for calendar year 2025, with a voluntary turnover rate of 13.42%. This reflects a 0.43% increase in turnover from the previous year.

We believe the small increase in voluntary turnover directly reflects CAPK resolving more leave cases with the use of our new vendor Unum. CAPK is more successful in resolving these extended leave cases so critical positions can be filled.

Successfully addressing high turnover rates requires a comprehensive approach, combining strategic Human Resources initiatives with a strong focus on cultivating a positive workplace culture. We appreciate the Committee and Board's ongoing support of these proposed initiatives which have enabled us to make a significant reduction in voluntary turnover. Human Resources will continue to propose initiatives that support our CAPK culture and that reflect current market data.
